THE NORTH CENTRAL ASSOCIATION QUARTERLY is published by the North Central Association of Colleges and Secondary Schools on the first day of July, October, January, and April. It is the official organ of the Association, and contains the proceedings of the annual meeting of the Association, together with much additional material directly related to the work of the Association. The regular subscription price is \$3.00 a year. The July number is priced at \$1.25; the others, 75 cents each. All members of the Association—institutional and individual—are entitled to receive the QUARTERLY as part of their annual fees. A special subscription price of \$2.50 per year is permitted to school libraries, college libraries, and public libraries and to individuals connected with North Central Association membership institutions.

Publication Office: The George Banta Publishing Company, Menasha, Wisconsin.

Executive and Editorial Office: 4012 University High School Building, Ann Arbor, Michigan.

Entered as Second-Class matter at the Post Office at Menasha, Wisconsin, under the Act of August 24, 1912. Acceptance for mailing at the special rate of postage provided for in Section 1103, Act of October 3, 1917, authorized March 8, 1919.

PROCEEDINGS OF THE COMMISSION ON COLLEGES AND UNIVERSITIES

NORMAN BURNS, *Secretary*

I. REPORT OF THE SECRETARY TO THE COMMISSION ON COLLEGES AND UNIVERSITIES

Accrediting Activities

LAST YEAR the Secretary of the Commission reported that the number of higher institutions seeking accreditation had increased each year since the resumption of accrediting activities in 1945. The upward trend continued this year. In the autumn of 1947 twenty-seven new applications were received; this past autumn the new applications numbered thirty. One institution withdrew its application. Twenty-nine institutions proceeded with the second step in the accrediting procedure, the filing of schedules in the Secretary's office. On the basis of very apparent weakness disclosed by an analysis of these schedules, the Board of Review refused to give further consideration to eleven of the applications. The remaining eighteen institutions were visited by examiners who, in accordance with usual practice, submitted written reports of their investigations.

In addition to the eighteen examinations of newly applying institutions, surveys were made of four member institutions whose standing on reports in the areas of faculty, finance, and/or library was so low in comparison with similar institutions as to suggest the existence of unsatisfactory conditions in the institutions. One accredited institution which has extended its program was surveyed in order to determine whether or not it could be continued on the accredited list with its extended program. Thus, a total of twenty-three surveys were made this year. The recommendations of the Board of Review with respect to the institutions surveyed are incorporated

in the report of the Board of Review which follows the report of the Secretary.

This section dealing with accrediting activities should not be concluded without a word of thanks to those persons who served as examiners. An examination carried on under North Central Association procedures is indeed an arduous task, involving as it does a careful study of the schedules in advance of the examination, a detailed analysis of every aspect of the institution's program, the completion of the institutional scorecard, and the preparation of a written report. We are indebted to the examiners for their fine service to the Association.

Biennial Studies

The Commission will recall that the member higher institutions of the Association report to the Secretary's office biennially over a six-year cycle in the areas of finance, library, and faculty. The reports are used for refreshment of our norms in these three areas and for checking on the status of member institutions. The Secretary's report of last year made reference to the Finance Report submitted in the autumn of 1947, and to the revision of the finance norms on the basis of that report. Subsequently, the individual institutions were notified of their standing on the revised norms, and a preliminary report of the findings appeared in the NORTH CENTRAL ASSOCIATION QUARTERLY for October, 1948. A more complete analysis of the data is now in process. The results of this analysis will be reported in the

QUARTERLY within the next few months.

The next in the regular series of biennial reports is the study of institutional libraries to be made in the autumn of 1949. It is planned that the library study will go somewhat beyond a mere refreshment of present norms, and will examine critically the present criteria with a view to their possible revision. This is in line with the Commission's fundamental policy of continuing reappraisal of the accrediting procedures in the light of experience gained and developments in the field of higher education. The first steps in devising an appropriate library report form have been taken by a committee composed of the following persons:

LEON CARNOVSKY, University of Chicago
B. LAMAR JOHNSON, Stephens College
C. LAWRENCE LYNN, Wright Junior College
E. HUGH BEHYMER, Bethany College
JULIAN S. FOWLER, Oberlin College
E. W. McDIARMID, University of Minnesota

After the preliminary work has been completed, the tentative report forms for the library study will be referred to the Committee on the Evaluation of Accrediting Procedures of which Dr. Harvey H. Davis of the State University of Iowa is chairman. It is this Committee, representative of the different types of member higher institutions, which is charged with the responsibility for approving the biennial report forms.

Special Studies and Revision of Procedures

In the Secretary's report for last year reference was made to a proposed study of junior colleges in the North Central Association territory. This study was to have for its purpose the development of evaluative criteria more specifically designed for this relative newcomer to the American educational scene. Our present criteria were

formulated primarily with reference to the standard four-year college. The Executive Committee of the Association subsequently approved the study and made funds available to carry it through its exploratory first year. The following persons were appointed to the Committee assigned the responsibility for the conduct of the study:

HORACE T. MORSE, Dean, The General College, University of Minnesota, Chairman
NORMAN BURNS, Associate Professor of Education, University of Chicago, and Secretary of the Commission on Colleges and Universities, Secretary
LOREN N. BROWN, President, Northern Oklahoma Junior College
B. LAMAR JOHNSON, Dean of Instruction and Librarian, Stephens College
EDGAR G. JOHNSTON, Professor of Education, Wayne University, and Secretary of the Commission on Secondary Schools
LELAND L. MEDSKER, Dean, Wright Junior College, Chicago
EARL E. MOSIER, Assistant Superintendent for Instruction, Department of Public Instruction, State of Michigan
D. L. PYLE, Director of Secondary Schools, Highland Park, Michigan

It is gratifying to report the high degree of interest in the study manifested by leaders in the junior college movement and by the institutions. One hundred fifty-five junior colleges in the twenty states served by the North Central Association have agreed to participate. Extensive inquiry forms have been prepared under the direction of the Committee and have been distributed among the cooperating institutions. It is planned that the analysis of these data and the preparation of a report on the total picture of junior college education in our territory will be followed by an intensive study of a selected group of institutions. The results of this study should place the Association in a position to provide leadership which will be beneficial to the junior college movement during this important period of its development.

In addition to the junior college study, other matters involving the effectiveness of the Commission's activities have engaged the attention of the Secretary's office during the past years. The following are among the major developments of this type.

In the past, the Commission has not approached directly the problem of approval of programs of graduate work. We have had for some time regulations providing for approval of programs of graduate study on the basis of high standing, in comparison with other member institutions, on certain measures of general institutional quality. These regulations were, however, designed to insure that a high quality of undergraduate work was being carried on before approval would be given to an extension of the program beyond the baccalaureate level; they did not provide for evaluation of the graduate work itself. With the widespread development of graduate programs this indirect approach has become inadequate. The time is here for the development of procedures which will permit a more positive and direct approach to the problem of evaluating graduate work.

A first step was taken in this direction with the adoption by the Executive Committee of a new procedure for the approval of graduate programs. The full statement of the revised procedure is reported in the October, 1948, issue of the NORTH CENTRAL ASSOCIATION QUARTERLY. Briefly, the new procedure provides, first, for a preliminary estimate of the adequacy of the applying institution's resources for the maintenance of a program of graduate study. If the resources appear adequate, the Board of Review approves the establishment of the program on a trial basis. Accreditation of the extended program is, however, withheld until the program has been in

operation long enough to permit appraisal by a visiting committee appointed by the Board of Review.

It is not assumed that this revised procedure will provide a completely satisfactory solution of the problem of evaluating newly established graduate programs. What is needed is an objective study of the purposes of programs of study leading to graduate degrees, and the ways in which institutions are attempting to accomplish these purposes. Such a study, which would permit the establishment of appropriate criteria for the evaluation of graduate programs, should be made as soon as possible.

Another project undertaken during the past year had to do with the simplification of the instructions followed by examiners in connection with institutional surveys. A group of experienced examiners, Rev. Wm. F. Cunningham, Notre Dame University, Dr. C. W. Kreger, Miami University, Professor M. G. Neale, University of Minnesota, and Dean Donald M. Mackenzie, Blackburn College, was called together for this purpose. Through their efforts real progress was made toward simplifying the examiners' instructions. Further work is needed on this aspect of our procedures. For one thing, the schedules used in connection with the surveys have been used practically without change for a number of years. They should be re-examined with a view to desirable revision as soon as possible.

You are all familiar with the problems posed by and the mounting opposition to the continued proliferation of accrediting agencies, each setting up its own requirements, its own report forms, and its own fees without regard to the activities of the other agencies. There are some who feel that the solution to the problem may lie in the discontinuance of all accrediting. Most

educators, however, would probably agree that the voluntary accrediting agency has an important role to play in the improvement of higher education, providing it recognizes the desirability of institutional variation and avoids the imposition of arbitrary and inflexible standards which, in effect, transfer the power of policy determination and implementation from the institution's administration and faculty to the accrediting agency. Nevertheless, the problem of the already large and still increasing number of accrediting agencies, despite the merit of their objectives, is one for which a solution must be sought, and the North Central Association is interested in doing whatever it can to contribute to a satisfactory solution. The Secretary of the Commission on Colleges and Universities is a member of the American Council on Education's Committee on Accrediting Procedures, and both he and the Secretary of the Association participated in a conference of representatives of various accrediting agencies held on March 14 and 15. This conference, sponsored by the American Council on Education, was held for the purpose of initiating plans for cooperation and elimination of unnecessary duplication among existing accrediting agencies. Another purpose of this conference was to explore the possibilities of coordinating the activities of the regional agencies to enable them to provide jointly for the services rendered by the Association of American Universities prior to the recent discontinuance of that agency's accrediting activities. The following plan emerged from this conference.

It was agreed to request each regional accrediting agency to appoint a member and an alternate member to a *National Committee of Regional Accrediting Agencies*, with one vote for each agency represented on the Com-

mittee. This Committee would be called together, initially, by the American Council on Education, through the Chairman of its Committee on Accrediting Procedures, President Charles E. Friley, Iowa State College of Agriculture and Mechanic Arts.

The regional representatives on the *National Committee of Regional Accrediting Agencies* would be authorized by their respective regional agencies to carry on the following functions:

1. To publish a list of "*Accredited Institutions of Higher Education of the United States*," to consist of those institutions accredited by the regional accrediting agencies.

2. To work toward a greater degree of uniformity of philosophy and procedures among regional accrediting agencies.

3. To establish a place for the collection of uniform information from all collegiate members of regional accrediting agencies.

4. To work with other accrediting agencies, and other groups interested in problems of accrediting, looking toward a greater degree of cooperation and coordination within the whole accrediting movement.

5. To consider, in cooperation with other groups, plans for the establishment of a "*National Federation of Collegiate Accrediting Agencies*," including the possibility and desirability of establishing a central office and staff to carry on the work of such Federation.

This plan will be presented to the Executive Committee at this Annual Meeting. If the hopes of the conferees are realized, the work of the National Committee will constitute a most significant forward step in the accrediting movement.

A number of references have been made in this report to the increased activity in the office of the Secretary.

This increased activity is due not only to the larger of institutions seeking membership in the Association, but also to the promotion and conduct of the kinds of studies which will permit the continuing re-examination and revision of our criteria and procedures. It is no exaggeration to state that unless adequate provision is made for the latter type of activity, the Commission cannot continue to be a vital force in higher education. Under these circumstances, the need for professional assistance in the office of the Secretary

has become imperative. We have been fortunate in securing the services of Dr. Manning M. Pattillo, Research Associate, Department of Education, the University of Chicago, whose appointment as Assistant Secretary of the Commission, effective April 1, 1949, was confirmed by the Executive Committee at its meeting in November, 1948. With Dr. Pattillo's able assistance, the office of the Secretary will be in a position to increase the effectiveness of its service.

II. REPORT OF THE BOARD OF REVIEW TO THE COMMISSION ON COLLEGES AND UNIVERSITIES

THE BOARD OF REVIEW has had three meetings during the past year. These were held on June 5, December 4, and March 25 through 28.

During the year under review it was necessary to fill two vacancies on the Commission. Mr. E. A. Youngert, Superintendent, Oak Park Township High School, Oak Park, Illinois, was elected as a Secondary School Member, Class of 1951, in place of Mr. C. H. Carson, Tucson, Arizona, who had been unable to accept membership in the Commission. Miss Helen Bragdon, President, Lake Erie College, Painesville, Ohio, was elected to fill the unexpired term of Dr. Algo D. Henderson, Class of 1950, who resigned from the Commission when he moved from the North Central Association area. These elections were confirmed by the Executive Committee at its June meeting.

President John W. Davis, West Virginia State College, Institute, West Virginia, was appointed to the Committee on the Evaluation of Accrediting Procedures to replace Dr. William A. Shimer who moved from the North Central Association territory.

It was pointed out in the report of

the Secretary that the biennial reports are used for refreshment of our norms and for checking on the status of member institutions whose standing on a biennial report is low in comparison with the general level maintained by institutions of the same class. The institution whose standing is low on a report dealing with one of the three areas, finance, library, or faculty, is asked to file special reports in all three areas, since apparent weakness in one area may be symptomatic of general weakness in the institution. The more complete data furnished in the special reports provide the Board of Review with more adequate information on which to base a decision as to what steps, if any, relative to the accredited status of an institution need be taken.

At the 1948 Meeting of the Commission the Board of Review reported that special reports had been requested from forty-three institutions because of low standing on the Faculty Report of 1945-46. The results of the analyses of these reports were studied by the Board at its meeting on June 5. It was decided that no further action need be taken in the case of seventeen of the forty-three institutions. Nineteen in-

stitutions were requested to file additional special reports in the autumn of 1948, and one in the autumn of 1949. Surveys were ordered for five of the institutions to be made in the autumn of 1948. Action on one report was deferred pending the receipt of additional information.

At its meeting on March 25 through 28 the Board of Review took the following actions relative to the institutions for which special reports were requested for the autumn of 1948: six institutions will be asked to file special reports on faculty in the autumn of 1949; two institutions will be asked to file special reports on faculty and finance in the autumn of 1949; in the case of the remaining eleven institutions, the decision was that no further action need be taken.

Of the five institutions for which surveys were ordered, four were made. The fifth institution resigned from the Association. The Board of Review recommends that the four member institutions surveyed be continued on the accredited list. Since unfavorable action was not taken, the names of these four institutions are not made public. In each case, however, the recommendation of the Board of Review was discussed with the Commission at its Executive Session, held Tuesday afternoon, March 29.

At its meeting on June 5, 1948, the Board of Review considered the results of the Finance Study of 1947-48. Because of low standing on that report, twenty-seven institutions were requested to file special reports in all three areas in the autumn of 1948. At the March 25 through 28 meeting, the Board, on the basis of the analyses of these reports, took the following actions: six institutions will be asked to file special reports on faculty in the autumn of 1949; one institution will be asked to file a special report on

finance in the autumn of 1949; two institutions will be surveyed; action was deferred pending receipt of more complete data in the case of one institution; no further action was taken in the case of the remaining seventeen institutions.

As was mentioned in the Secretary's report, surveys were made of eighteen newly applying institutions this year. The Board of Review recommends that the following be recommended by the Commission on Colleges and Universities to the Association for accreditation:

College of Education and Industrial Arts, Wilberforce, Ohio
 Dearborn Junior College, Dearborn, Michigan
 Glenville State College, Glenville, West Virginia
 Gogebic Junior College, Ironwood, Michigan
 Joplin Junior College, Joplin, Missouri
 Mount Mercy College, Cedar Rapids, Iowa
 New Mexico School of Mines, Socorro, New Mexico
 Northeastern Oklahoma A. and M. College, Miami, Oklahoma
 Philander Smith College, Little Rock, Arkansas
 St. Bede College, Peru, Illinois
 Southeastern State College, Durant, Oklahoma
 State Teachers College, Dickinson, North Dakota
 Stowe Teachers College, St. Louis, Missouri

The Board of Review recommends that the remaining five newly applying institutions not be recommended for accreditation. In accordance with the custom of the Commission, the names of these institutions are not made public. In each case, however, the recommendation of the Board of Review was discussed with the Commission at its Executive Session, held Tuesday afternoon, March 29.

The Board of Review also considered two applications which were tabled at the 1948 Annual Meeting, pending the filing of additional reports by the institutions. The Board of Review recommends the following action on these two applications: that Northeastern State College, Tahlequah, Oklahoma,

and Northwestern State College, Alva, Oklahoma, be accredited by the North Central Association.

Sioux Falls College, Sioux Falls, South Dakota, which has been accredited as a junior college, has extended its program to include four years of work leading to the Bachelor's degree. In accordance with the procedure requiring the survey of member junior colleges that extend their pro-

grams to include senior college work, this institution was surveyed in the fall of 1948. On the basis of the findings of the survey the Board of Review recommends that Sioux Falls College be removed from the accredited list.

The Board of Review recommends that all higher institutions now members of the Association not otherwise affected by actions taken in this meeting be accredited for the year 1949-50.

III. REPORT OF THE COMMISSION TO THE EXECUTIVE COMMITTEE

1. The Commission on Colleges and Universities recommends for accreditation by the North Central Association the following thirteen institutions which applied for accreditation in the year 1948-49:

College of Education and Industrial Arts, Wilberforce, Ohio

Dearborn Junior College, Dearborn, Michigan

Glenville State College, Glenville, West Virginia

Gogebic Junior College, Ironwood, Michigan

Joplin Junior College, Joplin, Missouri

Mount Mercy College, Cedar Rapids, Iowa

New Mexico School of Mines, Socorro, New Mexico

Northeastern Oklahoma A. and M. College, Miami, Oklahoma

Philander Smith College, Little Rock, Arkansas

St. Bede College, Peru, Illinois

Southeastern State College, Durant, Oklahoma

State Teachers College, Dickinson, North Dakota

Stowe Teachers College, St. Louis, Missouri

2. The Commission on Colleges and Universities reports that it declined to recommend for accreditation the remaining five institutions of higher education newly applying for accreditation this year.

3. Surveys were ordered for five member higher institutions this year. One of these institutions resigned from the Association. The Commission on Colleges and Universities recommends that the four member institutions which were surveyed be continued on the accredited list.

4. The Commission on Colleges and Universities considered two applications which were tabled at the 1948 Annual Meeting, pending the filing of additional reports by the institutions. It is recommended that the following action be taken on these two applications: that Northeastern State College, Tahlequah, Oklahoma, and Northwestern State College, Alva, Oklahoma, be accredited by the North Central Association.

5. Sioux Falls College, Sioux Falls, South Dakota, which has been accredited as a junior college, has extended its program to include four years of work leading to the Bachelor's degree. In accordance with the procedure requiring the survey of member junior colleges that extend their programs to include senior college work, this institution was surveyed in the fall of 1948. On the basis of the findings of the survey the Commission on Colleges and Universities recommends that Sioux Falls College be removed from the accredited list.

6. The Commission on Colleges and Universities recommends that all higher institutions now members of the Association not otherwise affected by actions taken in this meeting be accredited for the year 1949-50.

7. The Commission on Colleges and Universities has elected, subject to the

approval of the Association, the following members to the Commission:

Class of 1950

COLLEGE MEMBERS

WILLIAM R. ROSS, Colorado State College of Education, Greeley, Colorado
V. F. SCHWALM, Manchester College, North Manchester, Indiana

Class of 1952

COLLEGE MEMBERS

CONRAD BERGENDOFF, Augustana College and Theological Seminary
LOREN N. BROWN, Northern Oklahoma Junior College
MOTHER HELEN CASEY, Duchesne College
HARVEY H. DAVIS, State University of Iowa
MATT L. ELLIS, Hendrix College
HENRY G. HARMAN, Drake University
REES H. HUGHES, Kansas State Teachers College
O. H. RECHARD, University of Wyoming
N. E. STEELE, Northern State Teachers College
MALCOLM M. WILLEY, University of Minnesota

SECONDARY SCHOOL MEMBERS

CARL BURRIS, Principal, Clayton High School, Clayton, Missouri
WILLIAM S. GUSSNER, Principal, Jamestown High School, Jamestown, North Dakota
URBAN HARKEN, Principal, Senior High School, Burlington, Iowa
GLEN O. REAM, Principal, Senior High School Albuquerque, New Mexico
JAMES I. STEWART, Principal, North Phoenix High School, Phoenix, Arizona
W. C. WHALEY, Principal, E. Fairmont High School, Fairmont, West Virginia

The following have been elected to the Board of Review:

HENRY G. HARMAN, Drake University
REES H. HUGHES, Kansas State Teachers College

The officers of the Commission for the year 1949-50 are the following:

SAMUEL K. WILSON, S.J., University of Detroit, Chairman
COLEMAN R. GRIFFITH, University of Illinois, Vice-Chairman
NORMAN BURNS, University of Chicago, Secretary

IV. STATEMENT OF POLICY RELATIVE TO THE ACCREDITING OF INSTITUTIONS OF HIGHER EDUCATION¹

INTRODUCTION

THIS statement of policy defines certain principles that will be followed in accrediting institutions of higher education. It is stated in general terms and includes brief descriptions of those characteristics of an institution that will be examined as a basis of accreditation.

This statement of policy is supplemented by a manual which contains elaborations of the statements here given and detailed directions for the execution of the policy here set forth. Upon each important issue the *Manual* contains specific directions for the collection of information and such norms and criteria as will make possible a fair and intelligent evaluation of an institution.

MEMBERSHIP

The North Central Association of

Colleges and Secondary Schools will accredit and admit to membership as an institution of higher education a university, college, junior college, or institution of similar character that is judged to be of acceptable quality in matters later defined in this statement of principles. In the interpretation of this policy the liberty to integrate the whole or a part of a secondary school with a higher institution will be permitted.

Eligibility for membership will be based upon the character of an institution as a whole, including all the units within its organization. In the case of units, such as professional schools, that fall within the areas of

¹ At the annual meeting of the Association in April, 1934, this statement of accrediting policy was unanimously adopted by the Association in lieu of the accrediting standards in use up to that time.

other accrediting agencies, the actions of such accrediting agencies will be taken into account; but the Association does not bind itself to accept the judgment of these agencies.

PURPOSES OF ACCREDITING

The purposes of the Association in accrediting higher institutions are as follows:

1. To describe the characteristics of institutions worthy of public recognition as institutions of higher education
2. To guide prospective students in the choice of an institution of higher education that will meet their needs
3. To serve individual institutions as a guide in interinstitutional relationships, such as the transfer of students, the conduct of intercollegiate student activities, the placement of college graduates, and the selection of college faculties
4. To assist secondary schools in the selection of teachers and in advising students as to a choice of institutions, and to promote in any other ways the co-ordination of secondary and higher education
5. To stimulate through its accrediting practices the improvement of higher education in the territory of the North Central Association

BASES OF ACCREDITING

An institution will be judged for accreditation upon the basis of the total pattern it presents as an institution of higher education. While institutions will be judged in terms of each of the characteristics noted in this statement of policy, it is recognized that wide variations will appear in the degree of excellence attained. It is accepted as a principle of procedure that superiority in some characteristic may be regarded as compensating, to some extent, for deficiencies in other respects. The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

ELIGIBLE INSTITUTIONS

To be considered by the Association an institution must be incorporated as a nonprofit corporation devoted pri-

marily to educational purposes and² legally authorized to confer collegiate degrees, or to offer a definitely described portion of a curriculum leading to such a degree, or to offer specialized curriculums leading to an academic certificate. An approved institution is not barred from offering curriculums terminating at the end of one, two, or three years if they are taught at the level of collegiate instruction. The curriculum should presuppose the completion of a secondary-school curriculum as a condition for entrance to the institution, or secondary courses should be so integrated with the curriculum of the institution itself as to guarantee the educational progress of students to a definite stage of advancement beyond the completion of the usual secondary-school offering. Before an institution will be considered for accreditation, it must have been in operation long enough to make possible an evaluation of its program.

INDIVIDUALITY OF INSTITUTIONS

In its accrediting procedures the Association intends, within the general patterns of higher education, to observe such principles as will preserve whatever desirable individual qualities member institutions may have. While it is necessary to emphasize certain characteristics that are recognized as basic, such as the competence of the faculty, the representative character of the curriculum, effective administration, standards of student accomplishment, and financial adequacy, it is regarded as of prime importance also to protect such institutional variations as appear to be educationally sound. Even in these basic matters it is clear that considerable divergence from average or

² The words "incorporated as a nonprofit corporation devoted primarily to educational purposes and" were added to the Statement of Policy at the annual meeting of the Association in April, 1937.

optimum conditions may occur without perceptibly detracting from the essential educational worth of an institution. Uniformity in every detail of institutional policies and practices is believed to be not only unnecessary but undesirable. Well-conceived experiments aimed to improve educational processes are considered essential to the growth of higher institutions and will be encouraged.

PUBLISHED LIST OF ACCREDITED INSTITUTIONS

The Association will publish one list of accredited institutions of higher education. Attached to the name of each institution in the list will be notations relative to such objective facts as are pertinent to a description of the characteristics of an institution.

CONTINUING REVISION OF POLICY AND PROCEDURES

The effect of this program of accrediting upon the welfare of institutions is the vital matter in its formulation and adoption. Continuous study leading to adjustment and improvement is accepted as necessary to the full fruitage of the plan and will be considered an integral part of the regular accrediting activities of the Association. It shall be the policy of the Commission to study the operation of the principles given in this statement of policy and of the detailed procedures described in the *Manual*.

In pursuit of this policy there will be collected periodically from member institutions such information as will contribute to the procedures of accrediting and will reveal the changing character of these institutions. It shall be the duty of the Secretary, with the counsel of the Board of Review, to conduct biennially a study in one of the following three areas: (1) faculty competence, (2) library, (3) finance. Other areas may be studied as the Board of Review

deems desirable, but furnishing of information for general studies outside the three areas mentioned shall be on a voluntary basis on the part of member institutions. The report forms shall be adapted to characteristics of the several types of institutions represented in the Association, and constructed in the simplest form consistent with usefulness.

CRITERIA OF INSTITUTIONAL EXCELLENCE

I. PURPOSES AND CLIENTELE

Recognition will be given to the fact that the purposes of higher education are varied and that a particular institution may devote itself to a limited group of objectives and ignore others, except that no institution will be accredited that does not offer minimal facilities for general education, or require the completion of an adequate program of general education at the collegiate level for admission.

Every institution that applies for accreditation will offer a definition of its purposes that will include the following items:

1. A statement of its objectives, if any, in general education
2. A statement of the occupational objectives, if any, for which it offers training
3. A statement of its objectives in individual development of students, including health and physical competence

This statement of purposes must be accompanied by a statement of the institution's clientele showing the geographical area, the governmental unit, or the religious groups from which it draws students and from which financial support is derived.

The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

II. FACULTY

An institution should have a competent faculty, organized for effective

service, and working under satisfactory conditions.

In determining the competence of the faculty, consideration will be given to the amount and kind of education that the individual members have received, to their experience in educational work and to their scholarship as evidenced by scholarly publications and contact with learned societies. Attention will be given to the faculty requirements implied by the purposes of the institution. The educational qualifications of faculties in colleges of similar type will be considered in judging the competence of a faculty.

Under faculty organization consideration will be given to the number of the faculty in ratio to the number of students, to representation of the teaching fields, to the training of instructors in their fields of instruction, to group organization of the faculty, to faculty meetings, and to faculty committees.

Under satisfactory working conditions consideration will be given to the following: salary status; tenure; instructional load; recruiting, selection, and appointment; aids to faculty growth; and provisions for leaves of absence, retirement, insurance, housing, and recreation and community life.

III. CURRICULUM

The curriculum of an institution should contain the subject-matter offerings implied by its statement of objectives. In general, these offerings include provisions for general education, advanced courses when the purposes of an institution require such offerings, and special courses appropriate to the specific objectives which the institution claims as among its functions.

An institution should provide appropriate facilities for general education unless, as may be the case in a particular institution, its program presupposes the completion of an adequate program

of general education at the collegiate level prior to entrance.

The organization of the curriculum should be such as will best serve students of the type whose admission is implied by the declared purposes of the institution. Responsibility for the grouping of curriculum content, as by courses, departments, or divisions, will lie with institutions. The merit of a curriculum organization will be judged primarily by the manner in which it functions.

The curriculum of an institution will be regarded as effective only when the faculty includes instructors competent by reason of educational preparation to offer instruction in announced courses.

The institution should be able to show clearly that the curriculum as described in published statements is effectively administered in the case of individual students and that there is reasonable adherence to stated requirements in the awarding of degrees and certificates of progress.

IV. INSTRUCTION

An institution will be expected to show a sympathetic concern for the quality of instruction offered students and to give evidence of efforts to make instruction effective. Consideration will be given to the emphasis placed by the institution upon teaching competence in the selection and promotion of teachers, to the manner in which young instructors are inducted into teaching activities, to the aids that are provided as stimuli to the growth of individual members of the staff, to the institution's concern for high scholarship in students, to its emphasis upon the adjustment of the curriculum and teaching procedures to the abilities and interests of students, to efforts to make such examinations as are given more reliable and more accurate measures of student accomplishment, and to the

alertness of the faculty to the instructional needs of students. Familiarity of the administration and faculty with current discussions of instructional problems at the college level and with recent experimental studies of college problems are further evidences of institutional alertness to the need for good college teaching.

V. LIBRARY

The library should provide the reading facilities needed to make the educational program effective, and there should be evidence that such facilities are appropriately used.

In estimating the adequacy of the library, attention will be given to the holdings of standard works of general and special reference, to the holdings of magazines and periodicals, and to the number and variety of books. The use of the library by students and by the faculty, library expenditures over a period of years, the salaries of the library staff, the qualifications of the staff, and the administrative practices relating to the library will all be considered in this connection.

VI. STUDENT PERSONNEL SERVICE

The policy of an institution in admitting students should be determined, on the one hand, by the purposes of the institution and, on the other, by the abilities, interests, and previous preparation of applicants. An institution should admit only those students whose educational interests are in harmony with the purposes of the institution and whose abilities and previous preparation qualify them to pursue the studies to which they are admitted.

The student personnel service of an institution should assist students to analyze and understand their problems and to adjust themselves to the life and work of the institution.

In evaluating the practices of an institution in the induction of students, attention will be given to the provision for preregistration guidance in cooperation with secondary schools, to the criteria used in the selection of students, to the administration of the stated entrance requirements, and to the arrangements for introducing new students to the life and work of the institution.

Consideration will be given to the means employed by an institution to assist students in the selection of courses and curriculums, in solving immediate academic problems, in furthering their scholastic development, and in making suitable vocational choices and preparation. Attention will also be given to the practices of an institution in counseling students about their health, their financial affairs, and their intimate personal affairs. The student's relation to extra-curriculum activities will also be studied. The practices of an institution in the provision and control of health services, in the housing and boarding of students, in the management of extra-curriculum activities, in the control of student conduct, and in financial assistance to students will be considered.

VII. ADMINISTRATION

The administrative organization should be suitable for accomplishing the objectives of the institution. Adequate provision should be made for the performance of all administrative functions by a personnel competent in their respective lines of activity.

In evaluating the administration of an institution, the emphasis will be placed upon the manner in which the functions are performed rather than upon the organization or the personnel, although the suitability of the organization and the competence of the personnel cannot be ignored. Attention

will be given to such matters as the constitution and activities of the board of control; the general system of administrative control; the administration of academic matters, such as curriculum, faculty personnel, and instruction; the business administration, including financial accounting, budgeting, purchasing, the collection of revenues, and the supervision of the finances of student activities; the administration of the physical plant; the management of invested funds, if any; the administration of the student personnel service; the administration of special educational activities, if any, such as summer session or extension services; and the system of records and reports.

VIII. FINANCE

The institution should provide evidence of financial resources adequate for and effectively applied to the support of its educational program.

The items of information to be considered in determining the adequacy of the financial support are the expenditure per student for educational purposes,³ the stability of the financing, as indicated by the amount of income per student from stable sources, and the avoidance of burdensome indebtedness; and the procedures in financial accounting and reporting. Necessary adjustments will be allowed for contributed services of instructors and administrative officers in Catholic institutions.

IX. PHYSICAL PLANT

The physical plant, comprising grounds, buildings, and equipment, should be adequate for the efficient conduct of the educational program

and should contribute effectively to the realization of the accepted objectives of the institution.

In judging the plant, consideration will be given to the adequacy and effectiveness of such features as site; general type of buildings; service systems; classrooms, laboratories, and other facilities appropriate to the special purposes of the institution; office facilities; library building; facilities for health service, recreation, and athletics; dormitories; auditoriums; assembly rooms; and the operation and care of the plant.

X. INSTITUTIONAL STUDY

An institution should continuously study its policies and procedures with a view to their improvement and should provide evidence that such useful studies are regularly made.

Consideration will be given to the means used by the institution in the investigation of its own problems, to the nature of the problems selected for study, to the staff making studies, to the methods employed, to the attitude of the administration toward and the support given to such studies, and to the manner in which the results are made available to the faculty, the administrative staff, and the interested clientele. It is recognized that such studies may be of many sorts, ranging from small inquiries of immediate service value to elaborately conducted experimental investigations. They may deal with any phase of the work of an institution, such as administration, curriculum, student personnel service, instruction, or any other matter of immediate or remote concern to the institution. An institution will be requested to provide typed or printed copies of completed studies.

XI. ATHLETICS

If the institution maintains a pro-

³ A phrase relating to the dependence of an institution upon student fees was deleted from the Statement of Policy at the annual meeting of the Association in April, 1937.

gram of intercollegiate athletics, the same policies should prevail in regard to faculty, administration, and the management of students as are in force in connection with the other features of the institution.

In evaluating the athletic program, consideration will be given to the re-

quirements for eligibility for participation; the distribution of scholarships, loan funds, grants of financial aid, and remunerative employment; the methods taken to safeguard the health of participants; the administrative organization; the financial control; and the competence of the staff.

V. OPERATION OF THE ACCREDITING PROCEDURE

PROCEDURE TO BE FOLLOWED BY SENIOR INSTITUTIONS APPLYING FOR ACCREDITATION

A SENIOR institution seeking accreditation will initiate negotiations by filing a formal application with the Secretary of the Commission on Colleges and Universities on a blank especially provided for that purpose. This application will supply such information as will enable the Board of Review to decide upon the eligibility of the institution for consideration. The requirements for eligibility to membership in the Association are described in the Statement of Policy.

The application will be examined by the Secretary, who may request additional information upon any of the points if in his judgment such supplementary information is needed. In his discretion, the Secretary may advise the institution to proceed with its application. In that case he will proceed with the collection of such additional data as will be required for a full consideration of the application by the Board of Review, and will make the necessary arrangements for a survey of the institution. When the survey has been arranged, all other information in the possession of the Secretary will be turned over to the examiners. All the schedules of data will be included with the report of the examiners and filed with the Secretary for his use in presenting the case to the Board of Review.

In case the application indicates

such unfavorable conditions in the institution as would likely lead to rejection of the application, the Board of Review may refuse to accept for consideration the application of the institution.

At the time an institution makes application for a survey it will pay a fee fixed by the Board of Review.

It is understood that, after preliminary consideration of this application by the Secretary, the application may be withdrawn by the institution at any time prior to the completion and filing with the Secretary of the regular schedules used by the Association in accrediting and, in case it is withdrawn, that ten dollars (\$10) of the fee will be retained and the balance returned to the institution. In case this application is withdrawn after the regular schedules have been filled out and returned to the Secretary and before the survey of the institution is made, twenty dollars (\$20) of the fee will be retained and the balance returned to the institution. Neither the whole nor any part of the fee will be returned to an institution after the survey has been completed. Institutions surveyed on occasions other than the time of application will pay a fee fixed by the Board of Review.

PROCEDURE TO BE FOLLOWED BY JUNIOR COLLEGES APPLYING FOR ACCREDITATION

Junior colleges seeking accreditation

will make preliminary application to the General Secretary of the Association rather than to the Secretary of the Commission on Colleges and Universities and, on a form provided for the purpose, will indicate the type of organization and administration under which they operate.

The Secretary of the Association, with the assistance of the Secretary of the Commission on Colleges and Universities and the Secretary of the Commission on Secondary Schools, shall determine whether an institution seeking accreditation operates its program in the college field as a distinct and independent unit or in combination with one or more years in the secondary field. Institutions of the first type shall be classified as Type I; and institutions of the latter type, as Type II.

If an institution is considered to fall into Type I, its application will be forwarded to the Secretary of the Commission on Colleges and Universities, and the procedures of accreditation from this point on will parallel those for senior institutions. If, however, the junior college making application appears to have a program closely integrated with a secondary school or local public school system, information will be collected on special report forms adapted to the peculiarities of this type of school. One member of the examining committee for a Type II junior college will be named by the Board of Review of the Commission on Colleges and Universities, and one will be named by the Administrative Committee of the Commission on Secondary Schools. The reports and recommendations of examining committees of Type II institutions will be acted upon by the Board of Review and the Administrative Committee in joint session. Institutions accredited under this procedure will be included in the list of member institutions published

by the Commission on Colleges and Universities and also in the list of secondary schools published by the Secondary Commission. In its dealings with the Association, however, a Type II junior college shall be regarded as a single unit, and separate reports will not be required for its different levels of instruction.

FUNCTIONS OF THE SECRETARIES

Senior institutions seeking accreditation by the North Central Association will make their initial contacts through the Secretary of the Commission on Colleges and Universities. Junior colleges will make preliminary application to the General Secretary of the Association. Application in each case must be made not later than the first day of October preceding the annual meeting.

Upon acceptance of applications, the Secretary of the Commission on Colleges and Universities will send to senior institutions and to junior colleges classified as Type I appropriate schedules for filing the detailed information necessary for a full consideration for accreditation. The schedules must be completed and returned prior to the fifteenth day of November preceding the annual meeting. The Secretary will assemble these schedules, make such preliminary studies of the information as may be necessary, and make them available to the examiners appointed to visit each institution.

In the case of Type II junior colleges, the Secretary of the Commission on Colleges and Universities will function in conjunction with the Secretary of the Commission on Secondary Schools, and these officials will jointly arrange for the surveys.

Visits to institutions by the examiners will be scheduled at a sufficiently

early date that a preliminary draft of their report may be in the hands of the Secretary of the Commission on Colleges and Universities at least thirty days before the annual meeting of the Association. The Secretary submits this report, together with any other pertinent data which he may have, to the full Board of Review some days prior to the annual meeting. (In the case of Type II, junior colleges, the report also goes to the Administrative Committee of the Commission on Secondary Schools.) A preliminary draft of the examiners' report, without their recommendation, will be transmitted to the president of the institution concerned sufficiently in advance of the meeting of the Board of Review to permit him to submit such comment as he may deem desirable.

In all matters relating to accreditation, the Secretary of the Commission on Colleges and Universities shall act as the executive officer of the Board of Review and of the Commission, serve as the channel of communication with institutions, prepare the necessary reports to institutions and to the Association, and perform all the usual duties attaching to such an executive officer. At the close of each annual meeting he will prepare for publication a list of accredited institutions in accordance with the procedure outlined in the Statement of Policy.

Many of the procedures of the accrediting policy of the Association will require more or less constant revision as new information becomes available. The Secretary, therefore, will preserve all records accumulating in his office and make them available as the Association, the Commission on Colleges and Universities or the Board of Review may direct for such studies as may be useful in the improvement of the accrediting activities of the Association.

FUNCTIONS OF THE BOARD OF REVIEW

The Board of Review is the executive committee of the Commission on Colleges and Universities. It acts upon the application of an institution for accreditation and reports its decisions to the Commission on Colleges and Universities. The action of the Commission is final except that an institution may appeal to the Executive Committee of the Association, which in its discretion may confirm, modify, or reverse the action of the Commission.

In the performance of its functions the Board of Review will receive from the Secretary the formal applications of institutions, authorize surveys, appoint examiners, receive through the Secretary the reports of examiners and such additional information as he may lay before them, give full and impartial consideration to such reports, and take appropriate action thereon.

At the annual meeting the Board of Review will report its actions through the Secretary, to the Commission on Colleges and Universities and to the Executive Committee of the Association for acceptance, rejection, or modification, and later it will report to each applying institution the action taken upon its application. At the close of each annual meeting the Secretary will authorize the list of accredited institutions for publication.

FUNCTIONS OF THE EXAMINERS

Each institution applying for accreditation will be visited by examiners whose stay shall be long enough to enable them to form an estimate of the character of the institution and to determine the merit of its application. The examining team will include at least one member from an accredited institution of the same general type (e.g., junior college, teachers college,

liberal arts college of simple organization, etc.) as the institution being examined. Examiners will be selected in the light of special circumstances that may relate to the local situation. They will be informed on the nature of the institution being examined and on any special aspects involving public relations.

Before visiting an institution, the examiners will make a study of the schedules collected by the Secretary and will note any items that need verification or amplification at the institution. Upon each important issue involved, this *Manual* contains comparative data, examples of practice, or other criteria by means of which the data on the schedules can be evaluated.

The examiner's duties at the institution will be as follows:

1. To check the accuracy with which the schedules have been completed
2. To discuss with administrative officers and with the faculty the implications of the available data and such characteristics of the institution as are not covered in the schedules
3. To gather through conferences with staff members and students such additional facts and impressions as will complete the examiner's knowledge of the quality of the institution
4. To fill in and complete the scorecards used for making the pattern map

When two or more examiners join in the examination of an institution, as will be the customary procedure, they will naturally divide the work of inspection, in order that the time may be shortened and the work more thoroughly done. This method also provides that two or more competent judgments instead of one will be available for the guidance of the Board of Review.

Experience has shown that time is usually saved and a better understanding of the relations of the administrative officers to one another obtained if the inspectors hold a conference at the beginning of the survey with the

president and the chief administrative officers. This meeting may then be followed by the conferences with the individual administrative officers.

INTERVIEW WITH THE PRESIDENT

The examiner's visit to an institution should be so timed as to meet the convenience of the administration. Ordinarily the first person approached in an institution will be the president. He and his administrative associates should be able to verify, as may be desired, the information given on the schedules, to answer any questions that have arisen in the minds of the examiners when the schedules were examined, to provide such additional information as may be desired, and to indicate what other officers may provide information not available in the president's office.

Some of the particular matters that should be discussed with the head of the institution follow:

1. The purposes of the institution
2. The selection, appointment, and promotion of members of the faculty
3. The records kept by the institution concerning the qualifications and activities of faculty members
4. The quality of the present faculty—the areas in which it is strong or weak
5. The organization of the institution and the administrative units such as schools, colleges, and departments. Particular inquiry should be made as to how essential administrative functions are performed
5. The organization of the faculty, officers, committees, faculty units, and methods of function in meetings
7. The sources and character of the student body
8. The curriculum of the institution—its character, its adequacy, and its relation to the purposes of the institution
9. Instruction in the institution and methods of its improvement
10. The personnel of the board of trustees
11. The functions performed by the board and its committees
12. The degree to which the board has authority to make final decisions affecting the institution

13. The extent to which interested groups of the constituency influence the affairs of the institution in ways other than through the regularly constituted officials of the institution
14. The relation of the board to its executive officer
15. The type of the administrative organization, both in theory and in actual practice, and the smoothness with which the administrative system operates
16. The adequacy of the number of administrative officers
17. The qualifications of the various subordinate staff members in the administrative offices
18. The financial policies of the institution, particularly as they relate to the increasing development of stable sources of revenue for the support of the academic program
19. The general athletic situation, and its bearing on the instructional and financial program of the institution
20. The plans for the development of the physical plant, including plans with respect to features in which improvements, renovations, or additions are needed
21. The budgetary system, including methods of preparing the budget, the manner in which it is presented to the board for consideration, and the control of budget expenditures
22. The plan for managing invested funds, if any
23. The types of special educational activities maintained, such as summer session and extension activities; the reason for the maintenance of such features; and the policy with respect to their financing
24. The system of reports, including such matters as the president's annual report, the treasurer's annual report, reports of deans and department or division heads
25. Plans for fostering investigation and study of institutional problems
26. Institutional policies and practices in student personnel work

This interview should give the head of the institution an opportunity to interpret and evaluate the educational quality of his institution. He should express his judgment as to its strengths and weaknesses, its special contribution to the national structure of higher education, its needs, and lines of future growth and improvement.

INTERVIEW WITH THE DEAN

Although the functions of college deans vary from one institution to

another, they normally relate to the faculty, to the curriculum, to instruction, and to student problems. In the case of a particular institution the examiner will already have some information, and more will have been gained from the interview with the president. In interviewing the dean, an effort should be made to discover the administrative activities of the dean; his relations to students; to the recruiting, appointment, and promotion of the faculty; to the organization, direction, and control of the faculty; to the curriculum and instruction; and also to other administrative officers, such as the president, the registrar, the business manager, and other deans. This interview should afford the dean the opportunity to reveal his judgment of the educational quality of his institution, his grasp of significant educational problems, and his awareness of current issues in higher education.

INTERVIEW WITH THE REGISTRAR

The chief aim of the interview with the registrar should be to verify and supplement the data submitted on the enrolment schedules and to secure such additional information regarding entrance requirements and practices, methods of registration, guidance, and enrolment as he may provide.

The registrar should give a clear explanation of his own activities and his relation to the activities of other officers such as the president, deans, business manager, and the members of the faculty. His authority and his relation to students should be clearly reported.

The examiner should examine the records of the registrar's office relating to admission, examinations, and student marks. Inquiry should be made as to the methods employed to report the progress of students to the faculty, to parents, and to the student himself.

INTERVIEW WITH BUSINESS OFFICERS

The major officer (or officers, if there are more than one) in charge of business and financial affairs should be interviewed for the purpose of verifying information regarding the financial position of the institution and obtaining information regarding the methods of conducting business affairs. The degree to which business affairs are centralized should be ascertained. The system of financial accounting should be examined to determine whether it conforms to accepted practices and whether the financial data reported are reasonably comparable with those obtained from other institutions. The system of budgetary control, the procedures used in purchasing supplies, and the plans for the collection of institutional revenue should be studied. The extent to which adequate supervision is exercised over the finances of student activities should be investigated. The plans for handling invested funds, the custody of securities, the policies relating to investments, and the distribution of investments among various types of holdings should be discussed with the proper officer. The administrative organization for the care and operation of the physical plant should be studied. The reports previously submitted with respect to such items as income, expenditure, and indebtedness should be tested by a check of original records or audits, in order to insure that all items have been properly interpreted and correctly reported.

INTERVIEW WITH THE LIBRARIAN

The interview with the librarian should have three purposes:

1. To obtain his account of the manner in which records previously submitted to the Secretary's office were prepared
2. To secure his account of the library's relation to the general administration
3. To learn of the interest taken in the library by the instructional staff as a whole and with such reference to individual departments as he may consider important

The holdings of the library should be examined by a sampling procedure to ascertain the extent to which the distribution of holdings reflects the purposes of the institution, the curriculum offerings, and the enrolment by subjects and fields. Examinations should be made of such routines as are established for the recording of information concerning student use of the library and of particular parts of the collection. It is important that the librarian be asked to state uses to which such records are put wherever their use is not obvious.

INTERVIEWS WITH STUDENT PERSONNEL OFFICERS

Included in the group of personnel officers are such individuals as the dean of men, dean of women, director of the health service, nurse, placement officer, matrons of dormitories, and the coaching staff. In consultations with these various individuals the statement of duties and administrative relationships as reported on the schedules should be verified and the attitude toward students and student problems should be determined.

Inquiry should be made relative to procedures employed in counseling students. This will be done by ascertaining from student deans and others connected with personnel work the kinds of student problems evident at the institution and the methods used to aid students in dealing with them. The effectiveness of these procedures and of the institutional agencies for student guidance of extra-curriculum activities, scholarships, loan funds, and health and placement service should be studied.

As a further basis for evaluation, the

records which are kept of students' personal histories, of extra-curriculum activities, of scholarship funds, of loan funds, and of the health and placement service should be examined.

INTERVIEWS WITH STAFF MEMBERS

From the data provided in the various schedules, from suggestions direct and indirect, and from the president and deans a number of staff members should be selected for interview. At times, the examiner may meet small groups; at other times, individual interviews may be more desirable.

In staff interviews, the fundamental matters for discussion are: students, curriculum, library, and instruction, although sidelights upon the administration and the tone of the institution will frequently be secured. Appropriate inquiries may be made concerning the organization of the curriculum, the need for expansion or restriction, the methods of handling students, the selection of students, the means of improving instruction, the library, and similar matters. These interviews should reveal the degree to which the faculty is aware of current trends in higher education, of the advent of new methods of student management, of the reorganization of curriculums, of the changing emphasis upon examination practices and the need for their improvement, and of the contribution of experimental studies to educational improvement. In particular, they should reveal the instructor's familiarity with teaching development in his own subject.

INTERVIEWS WITH STUDENTS

It is advisable to consult different students relative to various aspects of the institution. These conferences should be made as informal as possible during visits to fraternity and sorority

houses, dormitories, the library, or other places that afford opportunities for informal contacts.

EXAMINATION OF PLANT AND INSTRUCTIONAL FACILITIES

Inspection will be made of the physical plant, including buildings, grounds, and equipment.

REPORT OF EXAMINERS

Following the survey of an institution, the examiners will file the completed schedules, scorecards, and a written report with the Secretary. This report should be based upon the schedules submitted by the institution and the additional information secured during the inspectional visit. It should express the judgment of the examiners upon the educational quality of an institution and should contain a definite recommendation as to whether the application of the institution should be approved or declined. A clear statement of the grounds for the recommendation should be given.

It is not intended that the examiner's judgment will be determined wholly by the factual data available. It is his function to evaluate these data as accurately as possible, but in his inspectional contacts he will gather numerous impressions of existing conditions of a less objective and less tangible character that have a bearing upon the character of the institution. In the light of his total knowledge and impression of the institution, it will be his duty to form a judgment of the competence of the institution as an agency for the higher education of youth. It is this composite judgment of the educational competence of an institution rather than the meticulous conformity to detailed criteria that should be the basis of the recommendation to the Board of Review.

INSTITUTIONAL PATTERN

With the abolition of standards reliance devolves upon the evaluation of an institution as a whole. To make this policy effective, it is necessary to secure accurate information concerning all institutional characteristics which contribute significantly to the character of the institution as a whole.

THE PATTERN MAP

As a means of convenient visual representation of the status of an institution a pattern map will be prepared. This map will be divided horizontally into a number of sections each dealing with the various phases investigated such as: purposes, faculty, curriculum, instruction, library, student personnel service, administration, finance, physical plant, institutional study, and athletics. Under each of the main headings appropriate sub-headings will be provided corresponding to the criteria that are noted in this *Manual*. For each criterion an appropriate vertical scale will be provided that will permit the representation of the relative standing of the institution on that point. A line connecting the points and indicating the standing of the institution on each item will provide a pattern map that will afford a ready visualization of the general condition of the institution as well as an indication of the particular points upon which the institution exhibits unusual strength or weakness.

For the construction of a pattern map for an individual institution there will be provided comparative data for each section considered. On each item a percentile distribution will be available that will permit the location of the institution with reference to a representative group of other institutions on the item concerned. This percentile position for each item will

be plotted on the pattern map. The line joining such points provides the general picture of the institutional status. An average performance is indicated by the fiftieth percentile point. The best performance obtained from any institution is the one hundredth percentile, and the poorest performance on each item is the zero percentile.

The use of the pattern map in the accrediting of an individual institution makes possible a flexible procedure. Each of the institutional characteristics for which measures are provided is in itself positively related to educational quality in an institution. The map exhibits the particular excellences and weaknesses of the institution and makes possible a judgment in which all these characteristics are taken into consideration.

It should be pointed out that scales for the different items are not to be thought of as scales of absolute measure. They are based upon the data at hand and represent the best approximation to real values which is now possible, but the scales reflect only the relative status within the group of institutions for which data are now available. As more data become available, the scales will be corrected at many points. In order to make this device usable over a period of years, it is necessary that data be continuously assembled and that, as institutions improve, the scales be frequently readjusted.

As a part of the report made to the Board of Review on each institution considered for accreditation, a pattern map will be presented in accordance with the specifications outlined in this section. The Board of Review shall have power from time to time, as conditions warrant, to change the items entering into the pattern map or otherwise to alter it in the interest of improving the plan of evaluating institu-

tions. The files of data accumulated in the Secretary's office shall be used in establishing percentile distributions serving as normative data to determine the position of specific institutions on each item.

INDIVIDUALITY OF INSTITUTIONS

The section on individuality of institutions in the Statement of Policy does not imply that all differences are important or that all variations in institutional pattern and activity are justified. Many superficial differences have no significance in determining the educational quality of an institution. These will be disregarded in accrediting. Other departures from general practice may really detract from the educational services of an institution and justify the Association in withholding recognition. There are, however, many variations among colleges that appear to be educationally sound; it shall be the policy of the Association to foster and encourage variations of this type.

A brief statement of the areas in which such variations may occur is given here. Many of the implications of this section will be developed in the subsequent treatment of the procedures to be employed in passing judgment upon an institution. The general statements made here will be useful chiefly in suggesting the need for caution in applying general policies of accrediting to individual institutions.

DIFFERENCE OF PURPOSE

Higher education has many and diverse purposes. In some cases an institution will limit itself to a single purpose or to a limited group of purposes. Colleges of engineering, medical schools and teachers colleges are illustrations. Accrediting methods should protect an institution in its unique purposes

and encourage it to be the best possible school of its type. So long as a school adheres to a limited purpose, it should not be under pressure to become a different type of school. The expansion or modification of its curriculum, for instance, should be determined by the needs of the particular type of education to which it is committed. A change in the major purposes of an institution will constitute grounds for a re-evaluation of the institution in terms of its modified purposes.

DIFFERENCES IN STUDENT ABILITIES

Over a period of years institutions tend to attract students of a particular type. This tendency is illustrated by uniformity in the intellectual level of entering Freshmen. In this respect wide differences prevail among institutions. Overlappings are common, but central tendencies are fairly distinct, and it is evident that a given institution may minister to a body of young people who, because of differences in intellectual powers, would be out of place in certain other institutions. It is not desirable that accrediting procedures should attempt to reduce all colleges to a common intellectual standard—for instance, by fixing a minimal score on an examination as an essential condition for entrance or graduation.

The Association may legitimately expect an institution to produce evidence that the significant characteristics of its student group are known to those responsible for administration and instruction and that reasonable efforts are made to adjust the activities to the needs of the particular body of students which the institution admits. An institution, however, should not be under pressure to select a particular type of student body, except in so far as the unique purposes of the institution may require students of a particular type.

DIFFERENCES IN CURRICULUM AND
INSTRUCTION

Inasmuch as the curriculum is merely the means by which an institution seeks to accomplish certain purposes, it is clear that curriculums cannot be the same for all institutions if purposes vary. It is legitimate to inquire whether a curriculum is consonant with announced purposes, whether it is taught by qualified instructors, and whether it is adequately supported financially and by laboratory and library facilities. Beyond such basic matters as these the institution should be free to select the content and procedures of instruction. Intimate with curriculum and instruction are standards of student achievement. The matter of such standards should remain clearly within the jurisdiction of individual institutions. What the Association will insist upon is sincerity of performance, honesty and fairness with students, and the absence of pretense that the institution is competent to perform certain functions which it is not.

DIFFERENCES IN ADMINISTRATION

Variations from the usual plans of institutional organization and administration may be justified in many cases. The competence of the administrative personnel is important, and inquiry may be made as to whether all the essential administrative functions are performed economically and in such a way as to facilitate educational purposes. Such inquiry should not operate to impose a standardized plan of administrative organization that will be exactly the same for every institution. Initiative in arranging the details of administrative organization should reside with those responsible for the conduct of the institution, although suggestions may be offered regarding plans that at present seem to be operating most effectively.

OTHER VARIATIONS

The foregoing enumeration of the areas in which the individuality of an institution should be protected is not inclusive but illustrative. Other important variations may occur in student personnel service, in the amount and sources of support, in plant, in extra-curriculum activities, and in many other matters. The crucial question concerning any such variation is: Does it further the achievement of the purposes of the institution; does it detract from such achievement; or is it merely negligible? Unless there is clear evidence that variations are harmful to the declared educational purposes of an institution, they will not be regarded unfavorably by the Association.

ENCOURAGEMENT OF VARIATION

In matters so intimately related to life as education should be, it is of the utmost importance that institutions be kept fluid and adaptable. The constant and continuous effort to improve its work through well-conceived and carefully directed educational experiments is a powerful instrument in keeping an educational institution alert and its work vital. For this reason the Association looks upon efforts at educational experiment as an evidence of vitality in an institution. In fact, it might well feel concerned if, over a period of time, no such efforts were in evidence in an accredited institution. Attention may properly be called to the qualification noted in this *Manual* that experiments of merit must be "well-conceived and carefully directed." The attempt merely to do something new may be deplorable, indeed, rather than meritorious. Opportunity will be given for each institution to set forth any unique features or practices which, in its judgment, should be protected in accrediting.

VI. LIST OF ACCREDITED INSTITUTIONS OF HIGHER EDUCATION

EFFECTIVE JULY 1, 1949 TO JUNE 30, 1950

Explanation of dates.—The dates listed are dates of membership. The first accredited list was published in 1913; no institution was accredited prior to that time.

A dash connecting two dates indicates continuous accreditation during the period specified, e.g., 1915-1919 means continuous accreditation from 1915 to 1919 inclusive. A date followed by a dash indicates continuous accreditation to and including the current year.

A semicolon indicates that the institution was on the list for the year or years specified but that it was not on the list for the following year, unless the next entry shows a change of classification for the latter years. For example, Iowa State Teachers College, at Cedar Falls, was on the first list of accredited teacher-training institutions published by the Association in 1913 and was continuously accredited to and including 1916; it was not on the list issued in 1917 but was restored in 1918 and was accredited continuously to and including 1929 as a teacher-

training institution, as indicated in the footnote. It was transferred to the list of colleges and universities in 1930.

Designation of extent of program.—The symbol (M) or (D) after the name of an institution indicates that the institution offers a graduate program leading to the Master's or Doctor's degree, respectively. The accreditation of the institution includes its graduate work. Those institutions which are listed neither as junior colleges nor as having graduate programs are Bachelor's degree-granting institutions.

Policy relating to applications from highly specialized institutions.—In March, 1949, the Board of Review of the Commission on Colleges and Universities took the following action to take effect immediately: applications for accreditation will be accepted only from institutions in which general education is a major function. This action was taken on the grounds that the present accrediting procedure is inadequate for the evaluation of institutions devoted solely to technical or professional education.

Wyoming.....	1	0	1
Total.....	289	54	343

ACCREDITED HIGHER INSTITUTIONS OUTSIDE N.C.A. TERRITORY

The following are the latest lists of higher institutions accredited by regional agencies other than the North Central Association

I. MIDDLE STATES ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

COLLEGES

DELAWARE

Delaware State College, Dover
University of Delaware, Newark

DISTRICT OF COLUMBIA

American University
Catholic University of America
Dunbarton College
George Washington University
Georgetown University
Howard University
Trinity College
Washington Missionary College

MARYLAND

College of Notre Dame of Maryland, Baltimore
10
Goucher College, Baltimore 18
Hood College, Frederick
Johns Hopkins University, Baltimore 18
Loyola College, Baltimore 12
Morgan State College, Baltimore 12
Mount St. Mary's College, Emmitsburg
St. Joseph's College, Emmitsburg
United States Naval Academy, Annapolis
University of Maryland, College Park
Washington College, Chestertown
Western Maryland College, Westminster
Woodstock College, Woodstock

NEW JERSEY

College of St. Elizabeth, Convent
Drew University, Madison
Georgian Court College, Lakewood
New Jersey College for Women, New Brunswick
Newark College of Engineering, Newark 2
Princeton University, Princeton
Rutgers University, New Brunswick
St. Peter's College, Jersey City
Seton Hall College, South Orange
Stevens Institute of Technology, Hoboken
Upsala College, East Orange

NEW YORK

Adelphi College, Garden City
Alfred University, Alfred
Bard College, Annandale-on-Hudson
Barnard College, New York City 27

Brooklyn College, Brooklyn 10
Canisius College, Buffalo
Clarkson College of Technology, Potsdam
Colgate University, Hamilton
College of the City of New York, New York City
31
College of Mt. St. Vincent, New York City 63
College of New Rochelle, New Rochelle
College of St. Rose, Albany
Columbia University, New York City 27
Cooper Union, New York City 3
Cornell University, Ithaca
D'Youville College, Buffalo
Elmira College, Elmira
Fordham University, New York City 58
Good Counsel College, White Plains
Hamilton College, Clinton
Hobart College, Geneva
Hofstra College, Hempstead, L. I.
Houghton College, Houghton
Hunter College, New York City 21
Keuka College, Keuka Park
Manhattan College, New York City 63
Manhattanville College of the Sacred Heart,
New York City 27
Marymount College, Tarrytown
Nazareth College, Rochester
New York University, New York City 3
Niagara University, Niagara Falls
Notre Dame College of Staten Island, Staten
Island
Polytechnic Institute of Brooklyn, Brooklyn 2
Queens College, Flushing
Rensselaer Polytechnic Institute, Troy
Russell Sage College, Troy
St. Bonaventure's College, St. Bonaventure
St. John's University, Brooklyn 6
St. Joseph's College for Women, Brooklyn 6
St. Lawrence University, Canton
Sarah Lawrence College, Bronxville
Siena College, Loudonville
Skidmore College, Saratoga Springs
Syracuse University, Syracuse
Union College, Schenectady
University of Buffalo, Buffalo
University of Rochester, Rochester
Vassar College, Poughkeepsie
Wagner College, Staten Island
Wells College, Aurora
William Smith College, Geneva
Yeshiva College, New York City 33

PENNSYLVANIA

Albright College, Reading
 Allegheny College, Meadville
 Beaver College, Jenkintown
 Bryn Mawr College, Bryn Mawr
 Bucknell University, Lewisburg
 Carnegie Institute of Technology, Pittsburgh
 Cedar Crest College, Allentown
 Chestnut Hill College, Philadelphia 18
 College, Misericordia, Dallas
 Dickinson College, Carlisle
 Drexel Institute of Technology, Philadelphia 4
 Duquesne University, Pittsburgh
 Elizabethtown College, Elizabethtown
 Franklin and Marshall College, Lancaster
 Geneva College, Beaver Falls
 Gettysburg College, Gettysburg
 Grove City College, Grove City
 Haverford College, Haverford
 Immaculata College, Immaculata
 Juniata College, Huntingdon
 Lafayette College, Easton
 LaSalle College, Philadelphia 41
 Lebanon Valley College, Annville
 Lehigh University, Bethlehem
 Lincoln University, Lincoln University P. O.
 Marywood College, Scranton
 Mercyhurst College, Erie
 Moravian College (Men), Bethlehem
 Mount Mercy College, Pittsburgh 13
 Muhlenberg College, Allentown
 Pennsylvania College for Women, Pittsburgh
 Pennsylvania State College, State College
 Rosemont College, Rosemont
 St. Francis College, Loretta
 St. Joseph's College, Philadelphia 31
 St. Vincent College, Latrobe
 Seton Hill College, Greensburg
 Susquehanna University, Selinsgrove
 Swarthmore College, Swarthmore
 Temple University, Philadelphia 19
 Thiel College, Greenville
 University of Pennsylvania, Philadelphia 4
 University of Pittsburgh, Pittsburgh
 University of Scranton, Scranton
 Ursinus College, Collegeville
 Villa Maria College, Erie
 Villanova College, Villanova
 Washington & Jefferson College, Washington
 Westminster College, New Wilmington

Wilson College, Chambersburg

PUERTO RICO

Polytechnic Institute of Puerto Rico, San German, P. R.
 University of Puerto Rico, Rio Piedras, P. R.

JUNIOR COLLEGES

Alliance College (formerly Alliance Jr. College), Cambridge Sps., Pa.
 Bennett Junior College, Milbrook, N. Y.
 Briarcliff Junior College, Briarcliff Manor, N. Y.
 Canal Zone Junior College, Balboa, C. Z.
 Centenary Junior College, Hackettstown, N. J.
 Concordia Collegiate Institute, Bronxville, N. Y.
 Farleigh Dickinson College, Rutherford, N. J.
 Finch Junior College, New York City 21
 Georgetown Visitation Junior College, Washington 7, D. C.
 Hershey Junior College, Hershey, Pa.
 Immaculata Junior College, Washington, D. C.
 Keystone Junior College, La Plume, Pa.
 Lycoming College (formerly Williamsport-Dickinson Jr. College), Williamsport, Pa.
 Mount Aloysius Junior College, Cresson, Pa.
 Mount St. Agnes College (formerly Mt. St. Agnes Jr. College), Mount Washington, Baltimore, Md.
 Packer Collegiate Institute, Brooklyn 2, N. Y.
 St. Charles College, Cantonville, Md.
 Wilkes College (formerly Bucknell University Junior College), Wilkes-Barre, Pa.

TEACHERS COLLEGES

Miner Teachers College, Washington 1, D. C.
 Wilson Teachers College, Washington 9, D. C.
 New Jersey State Teachers College, Montclair, N. J.
 New Jersey State Teachers College, Trenton, N. J.
 New York State College for Teachers, Albany, N. Y.
 State Teachers College, Buffalo, N. Y.
 State Teachers College, Clarion, Pa.
 State Teachers College, Cortland, N. Y.
 State Teachers College, Indiana, Pa.
 State Teachers College, Kutztown, Pa.
 State Teachers College, Mansfield, Pa.
 State Teachers College, Shippensburg, Pa.
 State Teachers College, Slipper Rock, Pa.
 State Teachers College, West Chester, Pa.

II. NEW ENGLAND ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

Secretary: GEORGE S. MILLER, Tufts College, Medford, Massachusetts

COLLEGES

CONNECTICUT

Albertus Magnus College, New Haven
Connecticut College, New London
Saint Joseph College, West Hartford
Trinity College, Hartford
University of Connecticut, Storrs
Wesleyan University, Middletown
Yale University, New Haven

MAINE

Bates College, Lewiston
Bowdoin College, Brunswick
Colby College, Waterville
University of Maine, Orono

MASSACHUSETTS

American International College, Springfield
Amherst College, Amherst
Atlantic Union College, South Lancaster
Boston College, Boston
Boston University, Boston
Clark University, Worcester
The College of Our Lady of the Elms, Chicopee
Eastern Nazarene College, Wollaston
Emmanuel College, Boston
Harvard University, Cambridge
Holy Cross College, Worcester
Jackson College, Medford
Massachusetts Institute of Technology, Cambridge
Mount Holyoke College, South Hadley
Northeastern University, Boston
Radcliffe College, Cambridge
Regis College, Weston
Simons College, Boston
Smith College, Northampton
Springfield College, Springfield
Tufts College, Medford
University of Massachusetts, Amherst
Wellesley College, Wellesley
Wheaton College, Norton
Williams College, Williamstown
Worcester Polytechnic Institute, Worcester

NEW HAMPSHIRE

Dartmouth College, Hanover
Mount Saint Mary College, Hookset
St. Anselm's College, Manchester
University of New Hampshire, Durham

RHODE ISLAND

Brown University, Providence
Pembroke College, Providence
Providence College, Providence
Rhode Island State College, Kingston

VERMONT

Bennington College, Bennington
Middlebury College, Middlebury
Norwich University, Northfield
St. Michael's College, Winooski Park
University of Vermont, Burlington

TEACHERS COLLEGES

CONNECTICUT

State Teachers College of Connecticut, New Britain

JUNIOR COLLEGES

CONNECTICUT

Junior College of Connecticut, Bridgeport

MAINE

Ricker Junior College, Houlton
Westbrook Junior College, Portland

MASSACHUSETTS

Bradford Junior College, Bradford
Lasell Junior College, Auburndale
Pine Manor Junior College, Wellesley

NEW HAMPSHIRE

Colby Junior College, New London

VERMONT

Green Mountain Junior College, Poultney
Vermont Junior College, Montpelier

III. SOUTHERN ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

Secretary: M. C. HUNTLEY, Birmingham 5, Alabama

UNIVERSITIES AND SENIOR COLLEGES

- Agnes Scott College, Decatur, Georgia
 Agricultural and Mechanical College of Texas,
 College Station, Texas
 Alabama College, Montevallo, Alabama
 Alabama Polytechnic Institute, Auburn, Ala-
 bama
 Alabama, University of, University, Alabama
 Appalachian State Teachers College, Boone,
 North Carolina
 Asbury College, Wilmore, Kentucky
 Austin College, Sherman, Texas

 Georgia School of Technology, Atlanta, Georgia
 Georgia State College for Women, Milledgeville,
 Georgia
 Georgia State Woman's College, Valdosta,
 Georgia
 Georgia Teachers College, Collegeboro, Georgia
 Georgia, University of, Athens, Georgia
 Greensboro College, Greensboro, North Carolina
 Guilford College, Guilford College, North Caro-
 lina
 Hampden-Sydney College, Hampden-Sydney,
 Virginia
 Hardin-Simmons University, Abilene, Texas
 Hollins College, Hollins, Virginia
 Howard College, Birmingham, Alabama
 Howard Payne College, Brownwood, Texas
 Huntingdon College, Montgomery, Alabama
 Incarnate Word College, San Antonio, Texas
 John B. Stetson University, Deland, Florida
 Judson College, Marion, Alabama
 Kentucky, University of, Lexington, Kentucky
 Kentucky Wesleyan College, Winchester, Ken-
 tucky
 King College, Bristol, Tennessee
 LaGrange College, La Grange, Georgia
 Lenoir Rhyne College, Hickory, North Carolina
 Limestone College, Gaffney, South Carolina
 Lincoln Memorial University, Harrogate, Ten-
 nessee
 Louisiana College, Pineville, Louisiana
 Louisiana Polytechnic Institute, Ruston, Louisi-
 ana
 Louisiana State University, University, Louisi-
 ana
 Louisville, University of Louisville, Kentucky
 Loyola University, New Orleans, Louisiana
 Lynchburg College, Lynchburg, Virginia
 Madison College, Harrisonburg, Virginia
 Mary Baldwin College, Staunton, Virginia
 Mary Hardin-Baylor College, Belton, Texas
 Mary Washington College, Fredericksburg,
 Virginia
 Maryville College, Maryville, Tennessee
 Memphis State College, Memphis, Tennessee
 Mercer University, Macon, Georgia
 Meredith College, Raleigh, North Carolina
 Miami, University of, Coral Gables, Florida
 Middle Tennessee State College, Murfreesboro,
 Tennessee
 Millsaps College, Jackson, Mississippi
 Mines and Metallurgy, College of, El Paso, Texas
 Mississippi College, Clinton, Mississippi
 Mississippi Southern College, Hattiesburg, Mis-
 sissippi
 Mississippi State College, State College, Missis-

sippi

Mississippi State College for Women, Columbus, Mississippi

Mississippi, University of, University, Mississippi

Morehead State College, Morehead, Kentucky

Murray State Teachers College, Murray, Kentucky

Nazareth College, Louisville, Kentucky

Newberry College, Newberry, South Carolina

North Carolina, University of, Chapel Hill, North Carolina

University of North Carolina at Chapel Hill

North Carolina State College of Agriculture and Engineering of the University of North Carolina, Raleigh, North Carolina

Woman's College of the University of North Carolina, Greensboro, North Carolina

North Georgia College, Dahlonega, Georgia

North Texas State Teachers College, Denton, Texas

Northwestern State College, Natchitoches, Louisiana

Our Lady of the Lake College, San Antonio, Texas

Queens College, Charlotte, North Carolina

Radford College, Radford, Virginia

Randolph-Macon College, Ashland, Virginia

Randolph-Macon Woman's College, Lynchburg, Virginia

Rice Institute, Houston, Texas

Richmond, University of, Richmond, Virginia

Roanoke College, Salem, Virginia

Rollins College, Winter Park, Florida

Salem College, Winston-Salem, North Carolina

Sam Houston State Teachers College, Huntsville, Texas

Scarritt College, Nashville, Tennessee

Shorter College, Rome, Georgia

South Carolina, University of, Columbia, South Carolina

Southeastern Louisiana College, Hammond, Louisiana

Southern Method University, Dallas, Texas

Southwest Texas State Teachers College, San Marcos, Texas

Southwestern, Memphis, Tennessee

Southwestern Louisiana Institute, Lafayette, Louisiana

Southwestern University, Georgetown, Texas

Spring Hill College, Spring Hill, Alabama

State Teachers College, Farmville, Virginia

State Teachers College, Florence, Alabama

State Teachers College, Jacksonville, Alabama

State Teachers College, Livingston, Alabama

State Teachers College, Troy, Alabama

Stephen F. Austin State Teachers College, Nacogdoches, Texas

Sul Ross State Teachers College, Alpine, Texas

¹ The Association voted to discontinue its accreditation program, effective in October, 1948; at the same time, it voted not to maintain its formerly approved list of institutions.

PROCEEDINGS OF THE COMMISSION ON SECONDARY SCHOOLS

EDGAR G. JOHNSTON, *Secretary*

I. REPORT OF THE COMMISSION

THE Administrative Committee of the Commission on Secondary Schools met on Sunday evening, March 27, preparatory to meetings of the Commission. Monday and Tuesday, March 28 and 29, were devoted to a meeting of State Committees and the annual review of reports from member schools. Wednesday morning, March 30, was a general meeting built around the theme: "Meeting Individual and Community Needs in the Secondary School." Speakers on this program were Earl S. Johnson, Associate Professor of Social Sciences, University of Chicago; Earl C. Kelley, Professor of Secondary Education, Wayne University Detroit; and H. C. Mardis, Principal, Lincoln High School, Lincoln, Nebraska. (Speeches made at this time will be printed in forthcoming issues of the *QUARTERLY*).

The Wednesday evening meeting drew an exceptionally large attendance. This was the traditional Conference on Secondary School Principals and the Commission on Secondary Schools. George F. Davis, Director of Student Affairs, Purdue University, Lafayette, Indiana, was moderator. The theme of the evening was: "The Development of Idealism." Matt L. Ellis, President, Hendrix College, Conway, Arkansas, presented the address of the evening: "Moral and Spiritual Standards in Life Adjustment Education." A discussion followed led by a panel of the following members:

Eugene Youngert, Superintendent, Oak Park Township High School, Oak Park, Illinois.

Rev. Ernest J. Yorger, Associate Minister, Central Presbyterian Church, Lafayette, Indiana

Ronald Schmidt, Superintendent, Whiting Plant, Standard Oil Company, Whiting, Indiana

Charles L. Anspach, President, Central Michigan College of Education, Mt. Pleasant, Michigan

Clifford Erickson, Director, Institute of Counseling, Testing and Guidance, Michigan State College, East Lansing, Michigan

Two business sessions of the Commission were held on Wednesday afternoon and Thursday morning. It has been customary that the first business meeting be informative in character, presenting reports of committees and other matters to come before the Commission, while the final business session provides for taking action on proposals and receiving the reports of the various reviewing committees.

At the first business meeting the following items were presented:*

1. Secretary's report. This report is presented elsewhere in this issue of the *QUARTERLY*.
2. Report on the Cooperative Study of Secondary School Standards. Dr. George E. Carrothers, Chairman of the General Committee of the Study of Secondary School Standards, and senior member of the Michigan repre-

* The two business meetings were so extended in character that they cannot be presented in any detail. Full notes of the meeting are on file in the office of the Secretary of the Commission and more detailed information concerning actions taken will be furnished interested parties on request.

sentation on the Study, reported progress on the revision of the *Evaluative Criteria*, which, it is expected, will be published in 1950.

3. Report of the Contest Committee. Chairman Fisher reported progress by the committee on an extensive study of contests in North Central territory and requested the continuation of the Committee for the ensuing year.
4. Report of the Cooperating Committee on Research. Chairman Boardman reported a meeting of the Joint committee with the Steering Committee of the Commission on Research and Service. Detailed plans for a study of the library in North Central secondary schools and the preparation of library personnel were agreed on and will be presented to the Executive Committee at the June meeting. Other studies considered had to do with the General Educational Development tests, fraternities and sororities, summer schools in secondary schools, and a special study of college-high school relationships. Plans are under way for a joint meeting of the three Commissions for the last mentioned study.
5. Report of the Committee on the Revision of the Rules of Procedure. Chairman Beck presented the proposals for changes which were published in the January issue of the *QUARTERLY*.

SECOND BUSINESS MEETING—THURSDAY MORNING

The Thursday morning business meeting was devoted to the consideration of a number of special proposals in addition to the reports from reviewing committees and the election of officers. Space does not permit report of the discussion on the various motions. For information of member schools actions taken by the Commission are summarized below:

1. Cooperative Study of Secondary School Standards. The Commission voted unanimously to recommend to the Executive Committee a contribution of \$1500 to the Cooperative Study of Secondary School Standards for the revision of the *Evaluative Criteria*. This represents the second installment of a total contribution of \$1 per member school requested in 1947. The North Central Association contributed the first \$1500 at that time.
2. Contest Committee. The Commission on Secondary Schools directed the Chairman of the Commission to continue the Contest Committee throughout the year, 1949-1950.
3. Time of taking office. The Commission adopted the date of July 1 following the annual meeting as the time when new members of state committees and newly elected members of the Commission assume office.
4. *Policies, Regulations, and Criteria*. The 1949 edition of the *Policies, Regulations, and Criteria*, which appears in full in another section of this report, was officially adopted.
5. Rules of Procedure. Actions recommended by the Committee on Revision of the Rules of Procedure reported by Chairman Beck in the January issue of the North Central *QUARTERLY* were adopted. These have to do with:
 - a. Membership of the State Committee and election of the State Chairman
 - b. Elimination of the office of vice-chairman of the Commission.

The proposed revisions were adopted. The Complete Rules of Procedure as revised in 1949 appear as part VI of the Secretary's report.

6. Report Forms. Two proposals from the Committee on Report Forms were

considered at length. Form A-2 (General report on the criteria) was adopted as presented by the Report Form Committee with the addition of a section dealing with Criterion 2.

It was proposed by the Report Form Committee that Section D, Program of Studies, of the revised *Evaluative Criteria* of the Cooperative Study of Secondary School Standards be used as the special study on Criterion 2 for 1950. Final action was taken after a motion, amendments, substitution, and reconsideration. In its final form, the motion read as follows: That the administration and use of Form D be left in the hands of each State Committee.

7. Relations of Secondary and Elementary Schools. On motion of Mr. Waskin of the Michigan State Committee, the Commission voted that a special subcommittee be appointed to study the problem of relationships between North Central high schools and their "feeder" elementary schools.
8. Status of Montana. The Commission recommended that the North Central Association withdraw from accrediting of secondary schools in Montana after June 30, 1951.
9. Election of officers: O. K. Garretson of Arizona, Chairman of the Nominating Committee, placed in nomination the following individuals who were dully elected:

Chairman: M. R. Owens, Director, Division of Instruction, State Department of Education, Little Rock, Arkansas

Administrative Committee member (1953): B. M. Hanna, Norwood High School, Norwood, Ohio

Class of 1952:

C. E. Eash, Warren Central High School, Indianapolis, Indiana

J. Andrew Holley, Oklahoma Agricultural and Mechanical College, Stillwater, Oklahoma

H. C. Mardis, Lincoln High School, Lincoln, Nebraska

F. L. Simmons, Collinwood High School, Cleveland, Ohio

H. B. Sutter, Wakefield High School, Wakefield, Michigan

A. E. Westgaard, Pulaski High School, Milwaukee, Wisconsin

The final action was the adoption in executive session of the reports of the various reviewing committees. The summary of actions on the reports of member schools is presented as the first item of Section III of the report of the Commission on Secondary Schools.

II. COMPOSITION OF THE REVIEWING COMMITTEE

About 350 high school principals and members of the Commission participated in the annual Review of Reports from member schools. Membership of the various Reviewing Committees is presented below:

REVIEWING COMMITTEE ON SCHOOLS TO BE UNQUALIFIEDLY RECOMMENDED

C. B. MANLEY, Principal, Senior High, Springfield, Missouri, *Chairman*

FRANK KRAUS, Superintendent of Schools, Cody, Wyoming, *Assistant Chairman*

JESS W. MATTHEWS, Principal, Senior High, Little Rock, Arkansas *Assistant Chairman*

HOWARD A. LATTA, Principal, Webster Groves High, Webster Groves, Missouri, *Secretary*

V. POLICIES, REGULATIONS, AND CRITERIA FOR THE APPROVAL OF SECONDARY SCHOOLS

AIMS OF THE ASSOCIATION

The object of the Association shall be the development and maintenance of high standards of excellence for universities, colleges, and secondary schools, the continued improvement of the educational program and the effectiveness of instruction on secondary and college levels through a scientific and professional approach to the solution of educational problems, the establishment of cooperative relationships between the secondary schools and colleges and universities within the territory of the Association, and the maintenance of effective working relationships with other educational organizations and accrediting agencies.

GUIDING PRINCIPLES

1. An institution should be judged upon the basis of the total pattern it presents as an institution of its type. While it seems necessary that institutions be judged in terms of particular characteristics, it should be recognized that wide variations will appear in the degree of success achieved.

2. It should be accepted as a principle of procedure that deficiency in one field may be compensated for by strength in other fields—no school should be denied accreditation because it fails to meet a specific standard, if its total pattern of achievement is good.

3. A school should be judged, in so far as is possible, in terms of its own philosophy and the purpose which it serves in its own community. The fact should be recognized that individual differences exist among schools and among communities.

4. Criteria should be flexible, and of a type that can readily adjust themselves to changing conditions.

5. Objective criteria should be based

upon a sufficient amount of research and experimentation to establish their validity as measuring instruments.

6. While it seems desirable that criteria regard as basic certain characteristics, such as faculty preparation, the intellectual and moral tone of a school, the nature of the school plant, the adequacy of equipment and supplies, the quality of the school library and library service, the condition of the records, the policies of the board of education, the financial status, the teaching load, and the educational program, it should be recognized that considerable divergence from normal standards may occur in one of these characteristics without greatly detracting from the educational merits of an institution. Uniformity in every detail stifles educational experimentation and is not only unnecessary but undesirable.

7. Criteria, to be of maximum value, should be stimulating and conducive to educational growth; they should be instruments for continuous self-evaluation and should provide the incentive to strive constantly toward higher goals of achievement.

POLICIES OF THE COMMISSION ON SECONDARY SCHOOLS

POLICY 1. A school which has submitted its annual report to the State Committee, which is in the highest class of schools as officially listed by the properly constituted educational authorities of the state and which has been approved continuously for five years shall not be dropped without a year's warning except by a three-fourths vote of the members of the Commission present. A school which has not been approved continuously for five years may be dropped without warning.

POLICY 2. It is the policy of the

Commission to recommend the removal from the approved list of the Association of any school which, after a year's warning, continues to violate the same Regulation or Criterion which was violated the previous year. Upon the recommendation of the State Committee, however, this policy may be waived by a three-fourths vote of the Commission members present.

State Committees are encouraged to advise a school which has been warned for violation of a Regulation or a Criterion to submit to an evaluation, using the *Evaluative Criteria*. This evaluation is to be carried out when, in the opinion of the State Committee, it will assist in improving the condition for which the school was warned, or in explaining the extenuating circumstances which may justify a second warning, or even the discontinuance of the warning.

POLICY 3. Secondary schools are approved for an indefinite period. All schools on the approved list, however, shall submit such reports as the Commission may require. The certificate showing that a school is approved by the Association is valid as long as the school meets the conditions for approval as defined by the Commission on Secondary Schools and approved by the Association.

POLICY 4. Credits acquired through summer session work, extension courses, correspondence courses, or state examinations will be accepted by the Association as counting toward the preparation of the teacher, if such credits are accepted by an approved institution of higher education.

The Association recognizes that credit established in accordance with the recommendations in *A Guide to the Evaluation of Educational Experiences in the Armed Services* is sound. Such credit may be counted as a part of the preparation of the teacher, when ac-

cepted by an approved institution of higher education.

POLICY 5. The Chairman of the State Committee is the official agent of communication between the approved schools of the state and the Secretary of the Commission on Secondary Schools. He is responsible to the Commission for the distribution, collection, and filing of all reports, and for such other duties as the Association may direct.

The Chairman of the State Committee shall be either the Committee representative of the State University or of the State Department of Education and shall be selected by majority vote of the State Committee, subject to the approval of the Executive Committee. He shall be elected for a term of four years, and shall be eligible to succeed himself, but may continue in office only so long as he is a member of the State Committee.

In the event of a vacancy in the chairmanship during the term of office of an incumbent, the State Committee shall elect a chairman to complete the unexpired term. The meeting for this purpose will be called by the secondary school representative having the longest tenure on the committee.

POLICY 6. The interim authority for interpreting Policies, Regulations, and Criteria for the Approval of Secondary Schools is the Secretary of the Commission on Secondary Schools.

POLICY 7. It is the policy of the Association to warn high schools for violation of the conditions for eligibility to the approved list of the Association and to drop from this list any high school which violates the same Regulation or Criterion during consecutive years. High schools may also be warned or dropped whenever it becomes evident that they frequently violate conditions for eligibility to the approved list. In the case of a minor

violation, the Association may instruct the State Committee to advise the school concerned. It is the policy of the Association not to take an action which is different from that recommended by the State Committee without first notifying the committee of the state concerned.

State Committees are encouraged to advise a school which has been warned for violation of a Regulation or a Criterion to submit to an evaluation, using the *Evaluative Criteria*. (See Policy 2)

POLICY 8. In the case of individual schools of any state, reasonable deviations from Regulations and Criteria may be accepted by the Commission and approved by the Association when recommended by the State Committee. Such recommendations must be supported by substantial evidence showing that these deviations are justifiable.

No school should be denied approval if it fails to meet fully all Criteria and Regulations, provided its total educational pattern is good, as revealed by the results of a competent survey or other evidence. Policy 8 also applies to new schools seeking admission.

State Committees are justified in expecting closer adherence to published regulations and criteria in the case of new schools. Special attention should be given to the reports of State Committees which have used the *Evaluative Criteria* as one of the steps to be taken by new schools in making their application for admission.

It is recommended that State Committees ask each prospective new school to carry out at least a self evaluation using the *Evaluative Criteria*. Such schools should be encouraged to use the full Cooperative Study procedure, supplemented by a review of the self evaluation by a visiting committee or by the State Committee.

The conditions for eligibility to the

approved list of the Association are included under two separate classifications:

A. *Regulations.*

B. *Criteria for the Evaluation of Secondary Schools.*

REGULATIONS

Regulations are those yardsticks which serve to assist schools which are members of the Association with definite guidance as to the necessary minima to be observed. In other words, regulations are floors below which there seems to be agreement that schools may not fall and still be of the type that should be considered good schools according to the Association's Criteria.

REGULATION 1. *The Annual Report Blank.* The Association is under no obligation to consider a school for unqualified approval unless the annual report blanks have been properly and completely filled out and placed on file with the State Chairman on the dates determined by the Commission.

REGULATION 2. *Organization of the School.* A secondary school shall base its report on all grades included in its organization.¹

REGULATION 3. *Qualifications of Staff Members.*²

(A) *Instructional Staff.*

(1) *General Preparation.* All members of the instructional staff possess a Bachelor's degree from an institution of higher education approved by the North Central Association of Colleges and Secondary Schools or from an in-

¹ A six-year high school may, with the approval of the State Committee, report upon the upper three years of the school.

² Except where specifically stated (as in the case of library personnel), requirements pertaining to staff preparation are not retroactive and do not invalidate the qualification of a staff member who was fully qualified under the standards applicable at the time of his appointment to his present position.

stitution of equal standing. (Exceptions may be made when recommended by the State Committee in the case of teachers of trades, if these teachers are legally qualified to teach in the state and have had the apprenticeship training required in their respective trades.)

Graduates of colleges not recognized by the North Central Association or by any other regional accrediting agency may become eligible to teach in a secondary school accredited by the Association by being admitted to graduate standing in an institution of higher education accredited by the Association or by any other regional accrediting agency, and by completing successfully not less than six semester hours of graduate work. This part of the Regulation is not to apply to graduates of non-accredited colleges who desire to teach in the state in which they were graduated, when approved individually in accordance with the policy of the State Committee.

Teachers in school systems having two or more high schools, who are transferred by the administrative officer from one school to another, and who, though not fully qualified, have been accepted previously by the Association, when they teach the same subjects in a new school as they were teaching in their former position, shall be accepted by the Association as properly qualified teachers, provided that the system encourages teachers who are not fully qualified to continue their educational preparation, and that evidence exists that progress is being made.³

(2) *Professional Preparation.* The minimum professional preparation of individual members of the instructional staff is fifteen semester hours of educa-

tion. In the case of a teacher whose professional preparation consists of less than fifteen semester hours, the State Committee shall have power to waive this Regulation if, in its judgment, the teacher is otherwise highly qualified and is doing clearly superior work.

(3) *Preparation in Teaching Areas.* Adequate preparation in teaching fields and areas is defined as that which meets the legal requirements of the state in which the school is located and also any special requirements set up by legally constituted educational authorities of the state, provided, however, that the minimum preparation is fifteen semester hours at the college level in any one of the following areas: language arts, a foreign language, social studies, science, mathematics, business, health and physical education, music, art, home economics, agriculture, and industrial arts, and adequate preparation in each subject taught.⁴ In the case of a teacher who devotes a minor fraction of his time to the teaching of a particular subject, a reasonable deviation from the minimum preparation may be accepted when approved by the State Committee.

In the case of unified courses which draw their subject matter from two or more teaching fields, the minimum preparation expected will be twenty semester hours on the college level, appropriately distributed among the teaching fields concerned.

Each State Committee will submit to the Secretary of the Commission on Secondary Schools the requirements of the properly constituted educational authorities of the state pertaining to

³ In the case of church schools, "school system" is taken to mean a group of schools under the central administrative control of a particular religious order.

⁴ Deductions in mathematics or in any one foreign language may be allowed to the extent of two semester hours for each unit earned in high school, not to exceed a total deduction of six semester hour

the preparation of teachers in subject fields and areas.

(4) *Records of Teachers' Preparation.* An official transcript or a certified copy of the college preparation of each teacher is kept on file in the office of the administrative head of the school or school system. All information which pertains to the preparation of teachers is secured from such official records.

An official transcript is the institutional credit record signed by the registering officer of the higher institution certifying the credits. Its submission to the State Chairman for evaluation may be required. A certified copy of the transcript may be accepted.

(B) *Library Staff.*⁵

(1) *Librarian.* In schools with an enrollment of 500 or more pupils, the librarian is a full-time librarian. In schools with an enrollment of 200-499 pupils, the librarian may be a full-time librarian, a study-hall librarian, or a teacher-librarian; at least half the time of a teacher-librarian is devoted to the library. In schools with an enrollment of less than 200 pupils, at least two periods a day of the teacher-librarian's time are devoted to the library.

(2) *Professional Preparation.* The librarian meets the requirements of Regulation 3A (1) and (2). In a school with an enrollment of 500 or more pupils, the librarian has completed a minimum of 24 semester hours of library science. In a school with an enrollment of 200-499 pupils, the librarian has completed a minimum of 16 semester hours of library science. In a school with an enrollment of less than 200 pupils, the librarian has completed a minimum of 6 semester hours in library science.

The work in library science includes such courses as the following: school

library organization and administration, cataloging and classification, book selection and acquisition with emphasis on the reading and needs of adolescents, reference material, and general bibliography.

(3) *Assistants.* Provision is made for an adequate number of assistants to the librarian, either as assistant-librarians or as pupil-librarians.

(C) *Other Professional Staff* (physician, dentist, nurse, psychiatrist, psychologist). Members of the non-instructional professional staff meet the requirements of the state in which the school is located.

(D) *Clerical Staff.* Adequate clerical assistance is provided. The qualifications of such personnel include, as a minimum, high school graduation and preparation in office practice.

(E) *Custodial Staff.* The members of the custodial staff meet the state requirements pertaining to their training and employment.

REGULATION 4. *Administrative Staff.*

(A) *Principal.* The principal (or the administrative head of the secondary school) has had at least two years of teaching experience and possesses as a minimum a Master's degree from an institution of higher education qualified to offer graduate work. His preparation in school administration and supervision includes an appropriate distribution of graduate work covering those phases of the school administrator's work which are professional in character, such as secondary school administration, curriculum making, the supervision of instruction, methods of teaching, philosophy of education, history of education, pupil activities, guidance, health and safety, vocational education, personnel records and reports, and school finance. Anyone who holds the title of principal meets the foregoing requirements.

⁵ Regulation 3(B) shall be in force upon adoption, but exceptions may be made by the State Committee until the school year 1955-56.

(B) *Superintendent.* The superintendent of schools or the administrative head of the school system has the teaching experience and professional preparation described in Regulation 4A.

(C) *Supervisory and Guidance Assistants.* Any member of the faculty who assists the administrative head of the school in the supervision of instruction possesses, as a minimum, the requirements specified in Regulation 3A (1) and (2), and, in addition, an appropriate distribution of graduate work in such fields as the supervision of instruction in the secondary school, personnel and guidance, methods of teaching, educational psychology, and philosophy of education.

REGULATION 5. *Length of School Year.* The minimum length of the school year is thirty-six weeks, 180 days, with a minimum of 172 days of classes actually in session.

REGULATION 6. *Length of Class Period.*

(A) A school may elect to conduct classes on the short period basis, the long period basis, or a combination of the two. The minimum length of the short class period for one unit of credit is defined as 40 minutes, exclusive of all time used in the changing of classes or teachers, five times a week for thirty-six weeks, or 180 days. Under this plan, two class periods necessitating little or no preparation outside of class are considered as equivalent to one period of prepared class work.

(B) The length of the laboratory or long class period, for one unit of credit and for the purposes of this Regulation, is defined as a minimum of 55 minutes exclusive of all time used for the changing of classes or teachers. Under the long period plan, directed study may be substituted for the outside preparation

required for the short period class. Under the short or the long period plan, however, a reasonable amount of outside or independent study by pupils in accordance with their abilities is encouraged.

REGULATION 7. *Requirements for Graduation.*

(A) A three-year senior high school requires a minimum of twelve units, or 120 semester hours, for graduation. Four-year senior high schools require a minimum of sixteen units, or 160 semester hours, for graduation. Six-year high schools require a minimum of twelve units, or 120 semester hours, earned in the upper three years. (See Regulation 2.)

(B) A semester hour is defined as the amount of credit granted for the completion of a course covering one semester and consisting of one class period weekly, as defined in Regulation 6.

(C) In order to permit variation from the foregoing definitions of a quantitative unit of credit based upon time elements and to stimulate improved standards of scholarship, the school may elect to grant credit on a qualitative basis. School authorities, therefore, are encouraged to determine credit through the use of approved end-of-course tests. These tests measure the achievement ordinarily required for credit in a one or two semester course. Any supplementary evidence which may be considered necessary or desirable to establish the validity of such credit may be required.

(D) State Committees are empowered to approve this plan for those schools wishing to adopt it, provided the school has personnel trained for the administration of such testing program. The scores of such tests may be used for the transfer of credit to other schools and to colleges.

(E) Tests may be used to classify individuals entering school with educational experience for which regular transcripts of credit are not available. Each individual thus tested is placed in the educational courses best suited to his needs.

REGULATION 8. *Size of School.* An approved school employs, as a minimum a number of teachers whose full-time equivalency is one in excess of the number of years in the organization of the school.

REGULATION 9. *Pupil Load.* In order to protect the social as well as the intellectual maturity of the pupil, it is advisable that he have four years experience in a four-year high school or three years experience in a three-year high school in order to graduate.⁶ In exceptional cases, pupils may be allowed to graduate in less than the time specified above, provided that adequate guidance procedures have been followed.

REGULATION 10. *Teaching Load.* In determining the teaching load, consideration is given to the following components: the number of periods of class teaching, the number of different preparations, study hall duty, class size, total number of pupils taught daily, the demands made in the way of any guidance and supervisory activities, and the duties involved in the sponsorship of pupil activities. Due allowance is made in computing the teacher load for special assignments to committee work whose purpose is to improve any phase of the school program. The desirable maximum equivalency of a combination of such duties is six periods daily for the short period

schedule, and five periods daily for the lengthened period schedule. A teaching load in excess of seven periods daily, including study hall assignments, for the short period schedule and six periods daily, including study hall assignments, for the lengthened period schedule is considered a violation of this Regulation. The total teaching load is not excessive and is distributed equitably among the teaching staff.⁷

REGULATION 11. *Library Expenditures.*

(A) That part of the annual secondary school budget devoted to library expenditures varies according to the size of the school, the smaller the school, the greater the pupil per capita expenditure. A minimum amount of \$200.00 is expended annually in each secondary school for the purchase of library books, periodicals, newspapers, pamphlets, vertical file materials, and supplies.

(B) The budget is planned in accordance with the library needs as shown by the annual library inventory and in accordance with the school's objectives for library service. The following scale of annual expenditures is recommended as a guide.

Schools with an enrollment of 1000 or more pupils expend approximately 50 cents per pupil.

Schools with an enrollment of 500 to 999 pupils expend approximately 75 cents per pupil.

Schools with an enrollment of 200 to 499 pupils expend approximately \$1.00 per pupil.

Schools with an enrollment of less

⁶ If the school has a summer session, the time spent may be counted as a proportionate part of the school year.

⁷ An average enrollment in the school in excess of thirty pupils per teacher is considered as a violation of this Regulation. For the purpose of interpreting this Regulation, the principal, vice-principals, study hall teachers, vocational advisers, librarians, and other supervisory officers may be counted as teachers for such portion of their time as they devote to the management of the high school.

than 200 pupils expend not less than \$200.00.

REGULATION 12. *Financial Support.* The financial condition of the school district or governing body is such that it is possible for the school to meet the conditions for accreditation and to maintain reasonably well standards of excellence as indicated in the Criteria.

CRITERIA

The standards of excellence which a school holding membership in the North Central Association is expected to maintain are based on statements in the *Evaluative Criteria*, as developed by the Cooperative Study of Secondary School Standards.

CRITERION 1. *Philosophy and Objectives.*

(A) *Pupil Population and School Community.* Since the school exists for the educational needs of its constituency, it should be familiar with the distinctive characteristics of the community, such as its sociological composition, its social, economic, religious, recreational and educational institutions and agencies, and the educational needs of both youth and adults. Since the local community is also a part of the state, nation, and world, the school must also be concerned with an understanding of the social, political, economic, and other forces of these larger communities and with the development of the ability of all peoples to live together in one world. A school, therefore, should develop its philosophy and objectives from an analysis of such social factors.

(B) *Philosophy of the School.* Each school should be free to determine its philosophy to the extent that it promotes the principles and spirit of American democracy. The statement of philosophy should be written, implemented by a specific statement of

objectives, and manifested in the educational program of the school.

CRITERION 2. *Educational Program.* The educational program of the school is concerned with more than the accumulation of knowledge, development of skills, and improvement of understandings. The development of interests, tastes, appreciations, ideals, and attitudes, and the functioning of all these elements in a democratic society should be included in the educational program.

An educational program which is concerned only with preparation for college can no longer be considered an adequate offering for a school, although preparation for college should continue to be one function of secondary education. The program should provide for the interests, needs, and abilities of all pupils as well as for the requirements of the community and the public supporting the school.

The evaluation of an educational program should be made in terms of the curriculum and courses of study, pupil activities, the library, guidance, instruction, and outcomes.

(A) *Curriculum.* The curriculum should be chiefly concerned with the orientation, guidance, instruction, and participation of youth in those significant areas of living for which education should supplement the work of other social institutions.

Constant adaptation and development of the curriculum should be a cooperative enterprise engaging all staff members, carried on under competent leadership, and using all available resources. Carefully conducted and supervised experimentation for curriculum development is desirable.

(B) *Pupil Activity Program.* The pupil activity program should aim to develop desirable social traits and behavior patterns in an environment

favorable to their growth. Special importance should be attached to provision for pupil participation through student councils or similar organizations in the administration of those school functions which especially concern the interest and welfare of pupils. The activity program should not only provide opportunity for developing leadership ability but should stimulate active participation of all pupils in appropriate school organizations and community activities.

(C) *Library Service.* The library is easily accessible to pupils, adequate in size, and attractive in appearance.

Adequate provisions for the school library should include the following: (1) a well-educated, efficient librarian; (2) books and periodicals to supply the needs for reference, research, and cultural and inspirational reading; (3) provision for keeping all materials fully catalogued and well organized; (4) a budget which provides adequately for the maintenance and improvement of the library; (5) encouragement of pupils in the development of the habit of reading and enjoying books and periodicals of good quality and real value; (6) continuous and systematic use of the library by teachers.

(D) *Guidance Service.* Guidance, as applied to the secondary school, should be thought of as a service designed to give systematic aid to pupils in making adjustments to various types of problems which they must meet—*educational, vocational, health, moral, social, civic and personal*. Guidance activities should be organized into a definite program in which each staff member is a responsible participant. Where counselors are available, they should be responsible not only for specific activities but for stimulating and assisting teachers in their guidance activities.

(E) *Instruction.* In the instructional program evidence should be found of:

(1) goals or objectives appropriate to the degree of development of pupils and in keeping with the purposes of the school; (2) the selection and use of varied types of teaching and learning materials and experiences; (3) the adjustment of method and organization to conditions and needs of pupils as a group and as individuals; (4) the use of every legitimate means available in the evaluation of progress and quality of learning; (5) a personal relationship of confidence, respect, and helpfulness between teachers and pupils, resulting in similar relationships between school and community; (6) provision for all desirable types of learnings; (7) definite and adequate learning by pupils as an outcome.

The efficiency of instruction, the acquired habits of thought and study, the general intellectual and moral tone of a school, and the cooperative attitude of the community are paramount factors. Only schools that rank well in these particulars are considered eligible for the list of schools approved by the Association.

(F) *Evaluation of Outcomes.* In the educational program of a good secondary school, major concern should be given to attaining desirable outcomes and to the various kinds of evidence indicating that such outcomes are being realized.

The results of the learning process should include: (1) factual information or knowledge; (2) meaning and understanding; (3) abilities to do—knowledge and understanding combined with skill; (4) desirable attitudes—scientific, social, moral, and others; (5) worthy ideals, purposes, appreciations, and interests; and (6) resultant intelligent participation in general life activities.

CRITERION 3. *School Staff.*

(A) *Instructional Staff.* The staff should be a group of individually com-

petent persons, organized into a co-operative body, having common purposes and motivated by the philosophy and objectives of the school. Diversity of preparation and viewpoints is desirable for a well-rounded staff, but its members should have the ability and the desire to work together, cheerfully, harmoniously, and efficiently for the good of the school and its pupils. Each member of such a staff should give evidence of awareness and understanding of educational problems and of *continuous professional growth*.

The number of staff members should be adequate for the curriculum offered, the school's enrollment, and the special needs of the pupils and the community. The teaching load and the total working load should be such as not to endanger the special needs of pupils.

Each staff member should have broad, general scholarship, thorough preparation in his special field, professional competence, and reasonable social development. In the selection of individual staff members, attention should be given to teaching ability, personality, health, and character. In evaluating the adequacy of the general preparation of the instructional staff, State Committees will take into consideration the extent to which the staff as a whole has completed work beyond the Bachelor's degree, the kind and distribution of college courses taken, the recency of their completion, and other evidences of professional growth.

Teachers should receive salaries adequate to insure a living standard comparable with the social demands on the profession and the worth of their service, as well as to provide security for old age.

(B) *Librarian*. The library staff has a broad, general education, a good understanding of the school's philosophy of education and of its educational program, and some successful

teaching experience. The staff has the ability to work effectively with teachers in finding and using suitable library materials and aids in teaching and learning, to work agreeably and effectively with pupils, and to teach them to find and use library material readily and effectively.

(C) *Other Professional Staff*. The services of such personnel as physician, dentist, nurse, psychiatrist, psychologist are desirable and should be adequate to the needs of the school.

(D) *Clerical Staff*. The clerical assistance necessary for an effective program of instruction, administration, and supervision should be provided.

(E) *Custodial Staff*. The number of custodial staff members should be adequate to keep the school plant in sanitary and efficient operation. They should be trustworthy, resourceful, and cooperative.

(F) *Health Examination*. It is recommended that a health examination be given to every new employee and periodically to every staff employee.

CRITERION 4. *Administration and Supervision*.⁸

(A) *The Board of Education*. Responsibility for determining the general policies of the school system is entrusted to a governing board, hereafter designated as the board of education. The administrative head of the schools is the chief executive officer of the board of education. Subject to the approval of the board of education, the administrative head is responsible for the selection and assignment of all school employees, the business management of the schools including school plant and equipment, the administration and supervision of the educational

⁸ In the case of private schools or church schools, by "Board of Education" is to be understood the individual or group performing the functions of the board of education which are considered in Criterion 4.

program, and the program of public relations. These duties necessitate organization of resources, both material and personal; delegation of duties and authority; and supervision of all delegated tasks and of all individuals to whom authority and responsibility are assigned. The better the administrative personnel, the more efficient will be the organization and management and the greater the probability of the successful attainment of the school's objectives, provided the personnel is always mindful of the primary function of the school—the development of its pupils. Success should be measured in terms of results, not of machinery.

(B) *Policies of the Board of Education.*

(1) The policies of the board of education are such as to encourage a maximum of educational growth and development. The board of education has a published statement of policy.

(2) The policies of the board of education are such as to attract and retain the services of well-qualified and competent staff members and a well-trained school administrator who is capable of providing effective educational leadership. It is the policy of the board under which an accredited high school operates to employ, promote, demote, and discharge staff members and other employees only upon the recommendation of the administrative head of the school system.

(3) No employee is dismissed during the term of a contract or refused re-employment except at an official meeting of the board of education. The minutes of such a meeting clearly indicate all actions taken by the board. Employees dismissed or refused re-employment are given the reasons for the action taken by the board and are given an opportunity for a hearing.

(4) The administrative head of the school system attends all meetings of the board of education except that

part of a meeting when his own employment is under consideration.

(5) The board of education deals with staff members and other school employees only through the administrative head of the school system.

(6) The administrative head of the school system is held responsible by the board of education for submitting a carefully planned budget and for the expenditure of money in accordance with the budget adopted. He keeps those members of the staff who have responsibility for the proper expenditure of school funds informed as to the balances remaining in that part of the budget which relates to their departments.

(7) The administrative head of the school system should share with the controlling board responsibility for establishing and maintaining desirable relations with the school's public. Therefore the supporting public should be informed regarding the policies, program, objectives, activities, and plans for the future of the school so that the support of the public be assured for the school's undertakings. There should always be a sympathetic and understanding relationship between the school and its administration on the one hand and its public on the other.

(C) *Cooperative Relationships.* The working relationships between the board of education and the administrative head of the system, between the administrative head of the system and the principal of the secondary school, and between principal and staff are such as to insure successful and effective administration. Administrative procedures should be carried on by democratic processes which recognize the abilities and contributions of staff members.

(D) *Administration.* The administration of the school is such as to insure a well-organized and well-managed

school, effectively and intelligently supervised, and meeting the needs and interests of the pupils and of the community. Effectiveness of organization, permanency of tenure of all staff members, as shown by the history of the school, and the attitude and support of the community are matters which will be taken into consideration in determining whether the school is eligible for accrediting.

Interference with the administration of the high school by organized groups of teachers or pupils, by the board of education, or by organized groups outside the school, when such interference is likely to result in a lowering of the effectiveness of the educational program, will be considered sufficient grounds for an official visit and inquiry into the condition of the school.

(E) *Supervision.* Supervision includes the improvement of every phase of the educational program, such as the organization of programs of studies, the revision of curricula, the instructional procedures, the pupil activity program, and the non-instructional activities of staff members. The administrator directly in charge of a secondary school should have ample time during the school day for the administration and supervision of his school.

(F) *Administration of the Activity Program.* A secondary school should not participate in any district, state, interstate, or regional athletic, music, commercial, speech, or other contest, tournament, congress, or assemblage involving the participation of more than two schools except those approved by the State Committee, or by that organization recognized by the State Committee as constituting the highest authority for the regulation and control of such activities. It should be the responsibility of the State Committee to furnish member schools with a list of approved contests, tournaments,

congresses, and assemblages. The State Committee should give prompt action on requests for the approval of activities.

(G) *System of Records and Reports.* A school should maintain a type of personnel and record system of such nature that it can provide any of the data asked for in the Criteria.

CRITERION 5

(A) *School Plant.* The school plant should be flexible, adequate in size, and so planned as to facilitate the offering of a modern program of secondary education that is suited to the needs and interests of the pupils and of the community. When a new plant is being planned, or an existing building is to be enlarged or remodeled, plans should contemplate meeting future as well as present needs. The building should be attractive and appropriate in design and should assure the safety and health of its occupants. The site should be large enough to provide ample playground space and should be attractively landscaped.

(B) *Library.*

(1) *Materials.* The library should be conceived of as a communications center. The number and kind of library and reference books, periodicals, newspapers, pamphlets, information files, audio-visual materials, and other learning aids should be adequate for the number of pupils and the needs of instruction in all courses offered.

(2) *Location and Equipment.*

(a) The library room, or combination library-study hall, should be easily accessible, should accommodate approximately ten per cent of the enrollment, should be attractive in appearance, and should contain standard library equipment, such as: reading tables, desks or desk-chairs, chairs, librarian's desk, cabinets for card catalogs, magazine and newspaper racks, dictionary stands, and filing

cabinets. In judging the adequacy of library space, consideration should be given to modifying factors in individual schools and to the extent to which library facilities are decentralized.⁹

(b) The record system should include a shelf list, alphabetically arranged card catalogs, an accession record, and should be classified by the Dewey Decimal system or other classification system acceptable to the State Committee. The central library may be supplemented by departmental or classroom libraries of frequently changed materials appropriate to the work of individual classes.

(C) *Sanitation.* Janitorial service, lighting, heating, ventilation, water supply and drinking fountains, lavatories and toilets, wardrobes and lockers, school furniture, and location of the classrooms, shops, laboratory, and library should be such as to insure hygienic conditions for pupils and teachers.

(D) *Safety.* Proper steps for protecting pupils against injuries should be taken in laboratories, shops, gymnasiums, transportation facilities, and in all parts of the building or grounds where accidents are likely to occur. The school plant should be adequately protected against fire and should have fire exits.

(E) *Instructional Equipment and*

Supplies. Instructional equipment and supplies, such as: science apparatus, laboratory tables and demonstration desks; shop tools and machinery; gymnasium equipment and supplies; equipment for home economics and agricultural laboratories; equipment and supplies for commercial, art, and music rooms; audio-visual aids equipment; maps and charts; library books, text books, and supplies should be adequate and used in such a way as to meet the needs of instruction for all courses and activities offered.

(F) *Special Services.* Adequate provision should be made according to the individual needs of each school for such special services as rest rooms, cafeteria, dining rooms, kitchens, clinics, infirmary facilities, and study and sleeping quarters.

(G) *Protection of Pupil Records, Care and Storage of Equipment and Supplies.* Ample provision should be made for the safekeeping, systematic arrangement, and care of all materials, supplies, and apparatus used in the instructional and activity program, and the storage of all financial and personnel records and reports. An annual inventory is made of all equipment and supplies. A fireproof vault should be provided, or a safe which meets underwriters' specifications.

VI. REPORT OF THE SECRETARY TO THE COMMISSION

The North Central Association may be distinguished from many other professional organizations by the extent to which it is a "working organization," operating through its three commissions and active committees. While the annual meeting of the Association includes addresses on significant topics

related to contemporary problems of schools and colleges, the commission meetings are devoted largely to determination of policies affecting education and setting up the machinery for implementing an effective program. The meetings of the Commission on Secondary Schools cover four full days and, in addition to review of reports of member schools, provide action on proposals from the committees of the

⁹ Quality of service and adequacy may be measured by the use of Section F, Library Service, of the *Evaluative Criteria*.

Commission, of the Administrative Committee, and of representatives of member institutions. The annual meeting is reported fully in other sections of the report of the Commission. The purpose of this report by the Secretary is to report to members of the Commission and to member schools the activities of the Administrative Committee, which serves as the directing agency of the Commission in the interim between annual meetings.

The Administrative Committee has held three meetings during the current year, two-day meetings in June and November, and a meeting on Sunday, March 27, in advance of the annual meeting. In addition, the Committee has worked in close cooperation with the various special committees authorized by the Commission and appointed by the Chairman and with the various state committees through which North Central Association policies are made effective in the various states. Of particular significance was the second annual two-day conference of state chairmen held in Kansas City on October 1 and 2.

The major actions and recommendations of the Administrative Committee are briefly summarized below:

At the June meeting of the Administrative Committee, June 24 and 25, Chairman Owens reported the following committee assignments:

CONTESTS:* Lowell B. Fisher, Chairman, University of Illinois, Urbana, Illinois

Otto Hughes, Principal, University High School, Bloomington, Indiana

Edward W. Bechtel, Principal,

Senior High School, Fergus Falls, Minnesota

J. Standifer Keas, State Department of Education, Oklahoma City, Oklahoma

Owen L. Robinson, Principal, Senior High School, Boulder, Colorado

COOPERATING COMMITTEE ON RESEARCH: Charles W. Boardman, Chairman, University of Minnesota, St. Paul

Dan H. Eikenberry, Ohio State University, Columbus, Ohio

J. Andrew Holley, Oklahoma Agricultural and Mechanical College, Stillwater, Oklahoma

Stephen Romine, University of Colorado, Boulder, Colorado

Eugene Youngert, Oak Park Township High School, Oak Park, Illinois

AMERICAN DEPENDENTS' SCHOOLS:

John Rufi, Chairman, Professor of Education, University of Missouri, Columbia, Missouri.

Edgar G. Johnston, University of Michigan, Ann Arbor, Michigan

B. M. Hanna, Principal, Senior High School, Norwood, Ohio

REPORT FORMS: Carl G. F. Franzen, Chairman, Indiana University, Bloomington, Indiana

D. H. Eikenberry, University of Ohio, Columbus, Ohio

Father Julian C. Maline, Regional Director, Jesuit High Schools, West Baden Springs, Indiana

Edgar G. Johnston, University of Michigan, Ann Arbor, Michigan

G. D. Scott, Principal, Central High School, La Crosse, Wisconsin

M. R. Owens, ex-officio member

RULES OF PROCEDURE: G. A. Beck, Chairman, Principal, Central High School, Duluth, Minnesota

L. A. Van Dyke, University of Iowa, Iowa City, Iowa

* George Manning, Principal, Senior High School, Muskegon, Michigan, and Chairman of the Contest Committee of the National Association of Secondary School Principals, was later added to members of the Committee.

A. J. Gibson, State Department of Education, Charleston, 5, West Virginia

These committees serve as sub-committees of the Administrative Committee to which they submit reports of progress and recommendation. In addition, reports were presented in full to the Commission on Secondary Schools.

The Committee on American Dependent Schools serves as a sort of state committee for this special group of schools recognized by the Association. Reports for these schools pass through the various reviewing committees as in the case of schools in the continental United States. One action of the Administrative Committee at the June meeting was the adoption of a set of guiding principles on Dependents' Schools proposed by the Committee on American Dependents' Schools.

The Committee on Contests undertook to canvass opinions of member schools as to the status of contests throughout the Association and to make a thoroughgoing study with recommendations.

The Cooperating Committee on Research has as its function cooperation with the Commission on Research and Service both to screen proposed studies for the participation of member schools of the Commission on Secondary Schools and to propose studies desired by that Commission. In addition, it may set up studies desired by members of the Secondary Commission, particularly those related to questions of accrediting.

The Committee on Report Forms has had the important task of devising a new type of report to reflect the purposes of stimulation and service to schools which the Commission undertook in the adoption of the revised "Policies, Regulations, and Criteria" at the annual meeting in March, 1949. This Committee held 3 three-day

meetings during the past year.

The Committee on Rules of Procedure was assigned the task of revising what, in effect, is the constitution of the Commission. The Rules of Procedure were not changed at the time of the revision of the Constitution of the Association, and attention of the Administrative Committee was called to certain ambiguities and inconsistencies which called for careful study. The proposed revision was printed in the January *QUARTERLY* so that members might be informed in advance of the annual meeting.

Other actions taken at the June meeting included:

1. Consideration of changes in action by the Reviewing Committees, which were requested by the schools concerned and recommended by the state committee. The procedure in the reversal of action taken at the annual meeting is for the Administrative Committee to recommend changes to the Executive Committee. Action taken was as follows:

- a. Little Falls, Minnesota, from list of Schools to be Dropped to the list of Schools to be Warned.
- b. New Ulm, Minnesota, from the list of Schools to be Advised to the list of Schools to be Qualifiedly Approved.
- c. St. Thomas Military Academy, St. Paul, Minnesota, from the list of Schools to be Dropped to the list of Schools to be Warned.
- d. Weeping Water, Nebraska, from the list of Schools to be Advised to the list of schools to be Unqualifiedly Recommended.
- e. Valley City, North Dakota, from the list of Schools Qualifiedly Approved to the list of schools Unqualifiedly Recommended.
- f. St. Bede Academy, Peru, Illinois, was admitted as a new school after having been refused admission at the annual meeting.

2. The question of duplicating membership of Montana schools was again discussed. Montana is included in the territory of the Northwest Association as well as of the North Central. For some years the Commission has felt it desirable that Montana come to a decision as to which Association it wished to accept for the state as a whole. The Secretary was directed to write Chairman Gullidge calling attention to the action of the Commission on Secondary Schools in 1944 and 1946 and to request a referendum of Montana schools and a report to the Commission.

3. A budget of \$19,298.50 was proposed for the Commission. This represented an increase over the budget of last year of approximately \$6,500. It was pointed out that the Executive Committee had approved a unanimous recommendation of the Commission on Secondary Schools to increase membership dues from \$7.50 to \$10.00 with the purpose of implementing the new criteria and report forms. The increase in budget was allotted primarily to state committees, to the offices of the Chairman and Secretary, and to the various special committees with a view to carrying out this function. The budget request was reduced by the Executive Committee of the Association to \$16,800, distributed as follows:

Office Expense	\$ 150.00
Office of Secretary	4160.00
Secretarial Assistance in Chicago	100.00
State Committees	7565.00
Administrative Committee	800.00
Office of Chairman	400.00
State Committee Chairman Meeting	1200.00
Cooperative Committee on Research	350.00
Contest Committee	500.00
Committee on Dependents' Schools	225.00
Report Form Committee	1000.00
Committee on Revision of Procedure	350.00

The November meeting of the Administrative Committee was devoted primarily to progress reports from the

various committees, plans for the annual meeting, and reactions of member schools to the new policies and report forms as presented at the conference of state chairmen. Specific action taken at this meeting included:

1. An endorsement of the attitude of the National Federation of High School Athletic Associations in recommending that member schools be advised against participation in the All-American High School Athletic Association. This action came on recommendation from the Contest Committee, which had investigated the organization concerned and considered that there was danger of exploitation of high school pupils through the organization.

2. The authorization of publication in the January QUARTERLY of the changes in procedure proposed by the Committee on Revision.

3. Approval of a proposal of the Co-operating Committee on Research that the Administrative Committee approach the other Commissions for a joint meeting of the three Commissions to consider the issues and problems of college-high school relationships. (It was hoped that a meeting of the officers of the two Commissions might be arranged to explore this problem at the time of the annual meeting. While this did not prove possible, steps are being taken to arrange such a meeting at the time of the June Executive Committee meeting.)

4. Assignment to the Committee on Report Forms of responsibility for revision of the Handbook for State Committees and Reviewing Committees. A lithographed edition of the revised Handbook has been made available for the March, 1949, meeting. After it is revised in the light of experience then, the Handbook will be printed for subsequent use.

5. Adoption of a proposal from Chairman Owens that the twenty state

chairmen serve as a Reviewing Committee on New Schools, and that this Committee meet on Monday of the annual meeting. The purpose of this change was to make it possible for state chairmen to be available at all times during the review of report forms on Tuesday.

The meeting on March 27 was devoted to final reports from various committees and matters to be presented to the Commission at the business meeting on Wednesday and Thursday.

Over a period of years the work of the Commission on Secondary Schools has been increasingly decentralized and the authority and responsibility of State Committees increased. While a great deal of leeway is given to the State Committees in making decisions, it was felt that there should be a degree of consistency among the states in interpreting policies, applying procedures, and exchanging experiences in services to schools. As a result of these considerations, a meeting of State Chairmen was held in the fall of 1947 under the leadership of Chairman Boardman. This meeting proved so valuable that a similar meeting was planned for the year 1948-1949, and an item to make this possible was included in the budget for the Commission. Chairman Owens arranged for this meeting to be held in Kansas City, Missouri, on October 1 and 2, 1948. All but one State Chairman was able to attend the full two days of the meeting. The Commission may be interested in a brief summary of activities carried on:

Materials used by various state committees in public relations and in communications with Secondary Schools were exchanged. A variety of practices in contact with schools was revealed; most of the states provide for an annual meeting of member schools, either

in conjunction with the State Principal's Association, or separately. Several states expand the contact of the State Committee through appointment of a number of volunteer "advisory committee members." Bulletins of various kinds to keep member schools informed on policies and developments in the Association were common.

In view of the importance of providing member schools with assistance in implementing the new "Policies, Regulations, and Criteria" and the accompanying reports, a series of "clinics" had been held in several states and plans for such "clinics" were reported in each of the states of the Association. The typical "clinic" lasted for a day and provided for discussion of the new criteria and detailed consideration of the various report forms, with opportunity for questions from representatives of schools. It was evident that the great majority of North Central principals would be in attendance at such "clinics" in their states.

The new report forms were discussed and procedures for dealing with the various items were agreed upon. It was felt that there should be consistency in application of regulations and criteria from state to state, without insistence upon absolute conformity, since conditions may vary among the member states. This was particularly true in regard to the library regulation. At least two states indicated that a sufficient supply of library personnel is available at the present time to put the new library regulation into effect at once. Most states indicated a serious shortage and planned various procedures for stimulating preparation of librarians and for assisting schools to make progress toward complete observance by 1955-1956.

Progress reports from the several special committees of the Commission

were made to the conference, both in order that state committees might be informed of the proposals of the committees and that the committees might benefit from suggestions. Chairman Owens reported a plan to be followed in selection of reviewing committee members, organization of the procedure for review of the annual reports, and the tentative plans for the Fifty-fourth Annual Meeting of the Association. It was the unanimous opinion of those in attendance that this conference of state chairmen is an extremely important agency in carrying out the purposes of the Commission. The judgment of the state chairman was ex-

pressed in the following resolution, which was unanimously adopted:

"Whereas, the Twenty State Chairmen of the Commission of Secondary Schools of the North Central Association of Colleges and Secondary Schools held a special two-day meeting in November, 1947, and a similar two-day meeting in October, 1948, which meetings, in the unanimous judgment of the Twenty State Chairmen, were extremely valuable from the standpoint of clarifying important issues and from the standpoint of planning in unified fashion the work of the Commission in the twenty states, be it resolved that an annual meeting of the Twenty State Chairmen be made a regular feature of the work of the Commission on Secondary Schools and that the officers of the Commission be instructed to include in the annual budget of the Commission an item covering completely the expenses of the annual meeting."

VII. RULES OF PROCEDURE

COMMISSION ON SECONDARY SCHOOLS

ARTICLE I. OBJECT

The object of the Commission shall be to represent the member secondary schools in their relations with the Association and to encourage and assist these schools in the development, maintenance, and continued improvement of a program of secondary education that will satisfy the needs, interests, and abilities of the individual pupils.

ARTICLE II. MEMBERSHIP

Section 1. The Commission on Secondary Schools shall consist of the members of the committee on secondary schools for each of the several states comprising the territory of the Association and eighteen other persons elected by the Commission, subject to the approval of the Association, for a period of three years, one-third of this number to be elected each year.

Section 2. The State Committee on Secondary Schools shall consist of:

1. A member of the faculty of the state university whose assignment is in the field of secondary education, to be nominated by the president of the university;

2. the director of secondary education of the state department of public instruction

or, in case there is no such officer, a member of the staff of the commissioner of education or superintendent of public instruction, designated by him;

3. and, for states having fewer than 300 high schools accredited by the Association, three administrative heads of secondary schools accredited by the Association.

In the event that the president of the state university should refuse or fail to designate a member of the faculty to serve on the State Committee on Secondary Schools, and/or in the event that the superintendent of public instruction or commissioner of education should refuse or fail to designate a member of his staff to serve on the State Committee, the Executive Committee of the Association shall fill such vacancies by nominating for election by the Association persons recommended by the Commission on Secondary Schools.

The administrative heads of secondary schools to be included in the membership of a State Committee shall be selected for membership by majority vote of the administrators of the member schools of the North Central Association within the State, their names shall be transmitted to the Secretary of the Commission on Secondary

Schools by the Chairman of the State Committee. Upon approval of the Commission on Secondary Schools, the names shall be transmitted to the Executive Committee which shall place the names in nomination for election by the Association. The term of membership of administrative heads of secondary schools on State Committees shall be three years. No such member shall serve more than two consecutive terms.

Section 3. No member of the Commission on Secondary Schools may serve for more than six years consecutively, excepting (1) the two members of each state committee who represent the state university and the state department of public instruction respectively and who automatically shall remain members of the Commission until their retirement from the state committee, and (2) the members of the Administrative Committee of the Commission on Secondary Schools who automatically shall remain members of the Commission until their retirement from the Administrative Committee.

Section 4. The Chairman of the State Committee shall be either the representative of the state university or of the state department of education on the committee and shall be selected by majority vote of the State Committee, subject to the approval of the Executive Committee. He shall be elected for a term of four years, and shall be eligible to succeed himself, but may continue in office only so long as he is a member of the State Committee.

In the event of a vacancy in the chairmanship during the term of office of an incumbent, the State Committee shall elect a chairman to complete the unexpired term. The meeting for this purpose shall be called by the secondary school representative having the longest tenure on the committee.

ARTICLE III. OFFICERS AND COMMITTEES

Section 1. The officers of the Commission shall be a chairman, a vice chairman, and a secretary. They shall be elected at the annual meeting of the Commission for a term of one year or until their successors are elected and installed.

Section 2. The Chairman shall be the executive officer of the Commission and

shall preside over all meetings of the Commission and shall call and preside over all meetings of the Administrative Committee of the Commission. He shall be ex-officio member of all standing and special committees and shall perform all such duties as usually pertain to the office of chairman.

Section 3. In the event of a vacancy in the chairmanship of the Commission on Secondary Schools the Administrative Committee shall designate a temporary chairman to serve until the next annual meeting of the Association.

Section 4. The Secretary shall keep all minutes of the meetings of the Association, of the Administrative Committee, and all other necessary records. Within thirty days after the close of each meeting of the Administrative Committee, he shall prepare and forward to the chairman of each state committee a copy of the minutes of such meeting. In the interim between meetings of the Commission and in response to requests from the chairmen of state committees, he shall interpret the provisions of the Policies, Regulations, and Criteria. Any appeal from the interpretations and decisions of the Secretary of the Commission shall be made to the Executive Committee of the Association.

Section 5. There shall be an Administrative Committee of the Commission composed of the Chairman, the preceding Chairman, the Secretary, and four (4) members elected by the Commission at the time of the annual meeting for four-year terms, one member to be elected each year.

During the interval between the Annual Meetings of the Association, the Administrative Committee of the Commission on Secondary Schools shall have the authority to carry on the necessary business of the Commission on Secondary Schools.

All acts of the Administrative Committee shall be subject to review by the Commission except where the Committee has been given final authority.

Section 6. In addition to ex-officio members, the Executive Committee of the Association consists of four (4) elected members, one term expiring each year. The Commission on Secondary Schools shall suggest to the Executive Committee each third year one member of the Commission for nomina-

tion to the Association for election to the Executive Committee.

Section 7. The Chairman of the Commission shall appoint a committee of three members whose duty it shall be to nominate suitable persons for each of the elective offices of the Commission. Nothing in this section shall be construed to limit the privilege of any member of the Commission to nominate officers from the floor.

ARTICLE IV. FUNCTIONS

The Commission shall prepare for the guidance of member schools and secondary schools seeking the approval of the Association a bulletin setting forth policies, regulations, conditions for accrediting, and criteria for the evaluation of secondary schools. Prior to the publication of this bulletin, it shall be submitted by the Executive Committee to the Association for approval or rejection.

The Commission shall receive and consider applications and reports from secondary schools within the territory of the Association seeking approval for membership in the Association; shall make such examinations and evaluations of these schools as it deems necessary; shall make such examination and evaluations of member schools as conditions may require; shall request periodic reports from member schools; shall prepare a list of secondary schools recommended by the Commission for accrediting

by the Association; shall submit to the Executive Committee for final approval by the Association the lists of members elected by the Commission; shall submit for approval to the Executive Committee its proposed budget; and, with the approval of the Executive Committee, shall make and publish studies of educational problems.

The Commission on Secondary Schools may, with the approval of the Executive Committee, grant a secondary school the necessary freedom to carry on any educational experiment that the Commission has approved.

ARTICLE V. MEETINGS

The annual meeting of the Commission shall be held at the time and place of the Annual Meeting of the Association.

ARTICLE VI. QUORUM

At any meeting of the Commission a quorum shall consist of thirty (30) members of the Commission representing a majority of the member states.

ARTICLE VII. AMENDMENTS

These rules of procedure may be amended at any regular meeting of the Commission by a majority vote of the members present provided such amendment has been presented to the Commission and delivered to the Secretary in written form twenty-four hours prior to the vote.

THE CONSTITUTION OF THE ASSOCIATION

ARTICLE I. NAME

The name of this Association shall be the North Central Association of Colleges and Secondary Schools.

ARTICLE II. OBJECT

The object of the Association shall be the development and maintenance of high standards of excellence for universities, colleges, and secondary schools, the continued improvement of the educational program and the effectiveness of instruction on secondary and college levels through a scientific and professional approach to the solution of educational problems, the establishment of cooperative relationships between the secondary schools and colleges and universities within the territory of the Association, and the maintenance of effective working relationships with other educational organizations and accrediting agencies.

ARTICLE III. TERRITORY AND MEMBERSHIP

Section 1. The territory of the Association shall consist of the states of Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, and Wyoming and/or such areas as may be hereafter included. Territory shall be excluded from, or included within the jurisdiction of the Association only upon the recommendation of the Executive Committee and by the vote of the Association. The recommendation of the Executive Committee shall be based on substantial evidence indicating that the action recommended represents the desire of the universities, colleges, and secondary schools of the territory concerned.

Section 2. The membership of the Association shall consist of three classes: (1) universities, colleges, and secondary schools; (2) officers of the Association and members of the Commissions; and (3) honorary members. Only members of Class 1 are eligible to vote at official meetings of the Association.

It shall be understood that membership in the Association for universities, colleges, and secondary schools is purely voluntary. Although all decisions of the Association bearing on the policy and management of universities, colleges, and secondary schools are advisory in character, it shall be understood that the Association has the right to establish requirements for membership, to develop and establish criteria for the evaluation of universities, colleges, and secondary schools, and to establish and maintain all regulations and conditions for continued membership in the Association.

Section 3. Any university, college, or secondary school which has been approved by the Association shall be admitted to membership on the payment of the annual dues. Such membership shall cease if at any time the university, college, or secondary school resigns or is dropped from the approved list of the Association or if the annual dues are more than one year in arrears. Any lapse in membership shall date from July 1 next succeeding the Annual Meeting at which time action was taken to drop the member university, college, or secondary school in question.

Section 4. All individuals holding membership on commissions of the Association or serving as elected officers of the Association shall thereby become members of the Association.

Section 5. Honorary members shall be nominated by the Executive Committee and elected by the Association by a two-thirds vote of all members present and voting at any session of the Association held during the Annual Meeting. Such individuals are honorary members of the Association and not honorary members of any particular commission.

Section 6. Honorary members shall receive the NORTH CENTRAL ASSOCIATION QUARTERLY and shall have all the privileges of membership in the Association except voting.

Section 7. Honorary members, officers of the Association, and members of the commissions shall not be required to pay dues as hereinafter defined.

Section 8. Members of the Association, honorary members, individuals officially connected with a university, college, or secondary school which holds membership in the Association, and individuals who are officially connected with the state department of public instruction of a state which is included in the territory of the Association shall have the right to attend the meetings and to participate in the activities of the Association and of the various commissions. It shall be understood, however, that attendance at such meetings and participation therein shall be in accordance with the provisions of this constitution and also with the policies adopted by the various commissions and by the Executive Committee.

ARTICLE IV. OFFICERS, COMMISSIONS, AND COMMITTEES

Section 1. The officers of the Association shall be a president, a vice president, a secretary, and a treasurer. The president and vice president shall be elected at the Annual Meeting of the Association for a single term of one year or until their successors are elected. The secretary and the treasurer shall be appointed by the Executive Committee and shall serve without compensation. Their terms of office shall be determined by the Executive Committee.

All officers of the Association and of the commissions shall be officially and actively connected with a university, college, or secondary school which holds membership in the Association or with the state department of education of a state in the territory of the Association as defined in Article III, Section 1.

Section 2. There shall be an Executive Committee, a Commission on Colleges and Universities, a Commission on Secondary Schools, and a Commission on Research and Service, and these shall be constituted as hereinafter defined.

The Executive Committee and the various commissions of the Association shall, within the limitations imposed by the constitution of the Association, have the right to determine their own procedures and to establish rules and regulations for governing such procedures.

Section 3. The Executive Committee.

The Executive Committee of the North Central Association of Colleges and Secondary Schools shall consist of the president, the vice president, the president of the Association during the preceding year, the secretary, the treasurer, the chairman and the secretary of each of the commissions provided for in Article IV, Section 2, and four additional members, one of whom shall be elected each year for a term of four years. Qualifications for membership on the Executive Committee shall be the same as prescribed for officers of the Association in Article IV, Section 1.

The Executive Committee shall receive from the Commission on Colleges and Universities the list of colleges and universities recommended for membership in the Association, shall receive from the Commission on Secondary Schools the list of secondary schools recommended for membership in the Association, shall pass upon such lists and shall submit them to the Association for final approval. It shall publish in the official organ of the Association, the NORTH CENTRAL ASSOCIATION QUARTERLY, the lists of universities, colleges, and secondary schools approved by the Association.

The Executive Committee shall have final authority to hear appeals from the decisions of the commissions relative to the approval of universities, colleges and secondary schools and to determine the action to be taken upon such appeals.

The Executive Committee shall be under no obligation to a member university, college, or secondary school to consider any appeal from the decision or action taken by a commission unless such appeal is filed with the Executive Committee within thirty days following the Annual Meeting. Before taking final action on an appeal, the Executive Committee shall request the officers of the commission concerned to make a recommendation and to submit therewith all facts pertinent to the case.

The Executive Committee shall nominate persons for membership in the various commissions. Such nominations shall be limited to those persons recommended for membership in the commission by the commission concerned. Persons nominated by the Executive Committee for membership

in the various commissions shall be elected by the Association in accordance with the provisions of the constitution.

The Executive Committee shall determine the time and place of the Annual Meeting of the Association, prepare the programs for the meetings of the Association, approve all programs for the meetings of the various commissions, provide for the publication of reports and proceedings, and transact any necessary business. The Executive Committee shall also fill all interim vacancies in the offices of the Association, and upon recommendation of the commissions concerned shall fill interim vacancies in the membership of the various commissions.

It shall be the duty and responsibility of the Executive Committee to coordinate the work of the various commissions in such ways as to further most effectively the object of the Association.

The Executive Committee shall have the power to authorize and approve all expenditures of funds and to require each commission to submit to it a budget. The proposed budget submitted by each commission to the Executive Committee for approval shall be a complete forecast embracing (1) the program of activities, (2) the estimated receipts together with their sources, and (3) the estimated expenditures necessary to carry out the work of the commission. It shall be the duty and responsibility of the Executive Committee to approve or disapprove in advance of any commitments the proposed program of activities of each commission.

At each Annual Meeting the Executive Committee shall submit to the Association a detailed report of income and expenditures. At the close of the fiscal year the Executive Committee shall require an official audit of all Association Accounts to be made by an auditor selected by the treasurer and approved by the Executive Committee. The audited report shall be published in the NORTH CENTRAL ASSOCIATION QUARTERLY.

All actions taken by the Executive Committee shall be subject to approval or revision by the Association with the exception of actions taken relative to those matters over which the Executive Committee has been given final authority.

Section 4. The Commission on Colleges and Universities.

The Commission on Colleges and Universities shall consist of forty-eight persons, thirty from the member colleges and universities and eighteen from the member secondary schools. These shall be elected by the Commission subject to the approval of the Association for a period of three years, ten members of the first group, and six of the second to be elected annually.

No member of the Commission may serve more than two terms consecutively, except the Secretary of the Commission and except in the case of a member of the Board of Review who shall automatically remain a member of the Commission until his retirement from the Board.

The officers of the Commission on Colleges and Universities shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations. The length of term for each officer shall be determined by the Commission.

There shall be a Board of Review whose membership shall consist of the chairman of the Commission, ex officio chairman of the Board of Review; vice chairman of the Commission, ex officio vice chairman; the secretary of the Commission, ex officio secretary and four members of the Commission to be elected by the Commission for overlapping terms of six years each, and upon the expiration of this term no member may succeed himself.

The Commission shall prepare a statement of policy to guide member colleges and universities and also colleges and universities seeking approval by the Association, which statement of policy shall be submitted by the Executive Committee to the Association for approval or rejection; shall receive and consider applications and reports from colleges and universities within the territory seeking approval for membership in the Association; shall make such examinations and surveys of these colleges and universities as it deems necessary; shall make examinations or surveys of member colleges and universities as conditions may require; shall request periodic reports from member colleges and universities; shall

prepare a list of colleges and universities recommended by the Commission for accrediting by the Association; shall submit this list to the Executive Committee for approval and publication; shall submit to the Executive Committee for final approval by the Association the list of individuals elected to membership on the Commission; shall submit its proposed budget to the Executive Committee for approval; and shall make and publish studies of educational problems approved by the Executive Committee.

The Commission on Colleges and Universities may, with the approval of the Executive Committee, grant a college or university the necessary freedom to carry on any educational experiment that the Commission has approved.

During the interval between the Annual Meetings of the Association, the Board of Review shall have the authority to carry on the necessary business of the Commission on Colleges and Universities.

Section 5. The Commission on Secondary Schools.

The Commission on Secondary Schools shall consist of the members of the Committee on Secondary Schools for each of the several states comprising the territory of the Association and eighteen other persons elected by the Commission subject to the approval of the Association for a period of three years, one-third of this number to be elected each year.

The State Committee on Secondary Schools shall consist of the high school visitor or corresponding officer of the state university, or a member of his staff designated by him; or, in case there is no such officer, some member of the faculty designated by the president of the state university; the inspector or supervisor of high schools of the state department of public instruction; or, in case there is no such officer, a member of the staff of the commissioner of education or superintendent of public instruction designated by him; and, for states having fewer than 300 high schools accredited by the Association, three administrative heads of secondary schools accredited by the Association; and, for states having 300 or more high schools accredited by the Association, five administrative heads of secondary schools ac-

credited by the Association.

In the event that the president of the state university should refuse or fail to designate a member of the faculty to serve on the State Committee on Secondary Schools, and/or in the event that the superintendent of public instruction or commissioner of education should refuse or fail to designate a member of his staff to serve on the State Committee, the Executive Committee of the Association shall fill such vacancies by nominating for election by the Association persons recommended by the Commission on Secondary Schools.

The administrative heads of secondary schools to be included in the membership of a State Committee shall be recommended for membership by the association of high school principals or corresponding organization of the state, and their names shall be transmitted to the secretary of the Commission on Secondary Schools by the chairman of the state committee. All members of the state committee on Secondary Schools shall be recommended by the Commission on Secondary Schools, and they shall be nominated by the Executive Committee for election by the Association. The chairman of each state committee shall be designated by the Commission on Secondary Schools in accordance with its adopted procedures subject to the approval of the Executive Committee. The terms of membership of administrative heads of high schools on State Committees shall be three years, and no such membership shall serve more than two consecutive three-year terms.

No member of the Commission on Secondary Schools may serve for more than six years consecutively, excepting (1) the two members of each State Committee who represent the state university and the state department of public instruction respectively and who automatically shall remain members of the Commission until their retirement from the State Committee, and (2) members of the Administrative Committee of the Commission on Secondary Schools, who automatically shall remain members of the Commission until their retirement from the Administrative Committee.

The officers of the Commission on Secondary Schools shall be a chairman, a vice

chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations. The length of term of each officer shall be determined by the Commission.

There shall be an Administrative Committee of the Commission on Secondary Schools composed of the chairman of the Commission, ex officio chairman of the administrative Committee; the secretary, ex officio secretary; the preceding chairman; and four members elected by the Commission at the time of the Annual Meeting of the Association for a period of four years, one member to be elected each year.

The Commission shall prepare for the guidance of member schools and secondary schools seeking the approval of the Association a bulletin setting forth policies, regulations, conditions for accrediting, and criteria for the evaluation of secondary schools. Prior to the publication of this bulletin, it shall be submitted by the Executive Committee to the Association for approval or rejection. The Commission shall receive and consider applications and reports from secondary schools within the territory of the Association seeking approval for membership in the Association; shall make such examinations and evaluations of these schools as it deems necessary; shall make such examinations or evaluations of member schools as conditions may require; shall request periodic reports from member schools; shall prepare a list of secondary schools recommended by the Commission for accrediting by the Association; shall submit this list to the Executive Committee for approval and publication; shall submit to the Executive Committee for final approval by the Association the lists of members elected by the Commission; shall submit its proposed budget to the Executive Committee for approval; and shall make and publish studies of educational problems approved by the Executive Committee.

The Commission on Secondary Schools may, with the approval of the Executive Committee, grant a secondary school the necessary freedom to carry on any educational experiment that the Commission has approved.

During the interval between the Annual Meetings of the Association, the Adminis-

trative Committee of the Commission on Secondary Schools shall have the authority to carry on the necessary business of the Commission on Secondary Schools. During this interval, the secretary of the Commission shall have the authority to interpret policies, regulations, and criteria. Any appeal from the interpretations and decisions of the secretary of the Commission shall be made to the Executive Committee.

Section 6. The Commission on Research and Service.

The Commission on Research and Service shall consist of twenty-four persons; twelve from member colleges and universities and twelve from member secondary schools. These shall be elected by the Commission subject to the approval of the Association for a period of three years, four members of each group to be elected annually. No member of this Commission shall serve for more than two consecutive three-year terms.

The officers of the Commission on Research and Service shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations, but subject to the limitations imposed by the constitution. All officers of the Commission shall be selected from among those who are members of the Commission, and it shall be understood that the term of each officer shall not extend beyond the date of the expiration of his term as a member of the Commission.

There shall be a Steering Committee whose membership shall be determined by the Commission in accordance with its own policies and regulations.

The Commission on Research and Service shall initiate, plan, and carry forward studies in the fields of educational and institutional research and service pertaining to universities, colleges, and secondary schools, subject to the approval of the Executive Committee; shall, subject to the approval of the Executive Committee, engage in such research, study, and activity as either of the other commissions may request; shall engage in such research, study, and activity as the Executive Committee may request; shall report its findings to the appropriate commission or commissions and to the Association, as directed by the Ex-

ecutive Committee; shall submit its proposed budget to the Executive Committee for approval; shall submit to the Executive Committee for final approval by the Association the list of individuals elected to membership by the Commission; and shall furnish leadership in interpreting its research findings and in focusing attention on those problems which are in need of consideration.

During the interval between the Annual Meetings of the Association, the necessary work and business of the Commission on Research and Service shall be administered by a committee consisting of the officers of the Commission.

Section 7. Nominating Committee.

Prior to each Annual Meeting of the Association, the president shall appoint, subject to the approval of the Executive Committee, a committee of five persons whose duty it shall be to nominate properly qualified persons for election to the offices of president and vice president, to membership on the Executive Committee, and to any office not elsewhere provided for by the constitution. The announcement of these nominations shall be made during the first session of the Association held during the Annual Meeting, but election shall take place during a later session. Independent nominations may be made upon the written petition of any ten persons who are members of the Association or official representatives of member institutions. The list of persons so nominated shall be filed with the secretary of the Association not later than twelve hours prior to the opening of the session during which the election of officers is to take place.

Section 8. The Editorial Board.

The Editorial Board shall consist of the president, secretary, and treasurer of the Association, the secretaries of the commissions, and a managing editor selected by the Executive Committee.

ARTICLE V. MEETINGS

There shall be an Annual Meeting of the Association at such time and place as may be determined by the Executive Committee and approved by the Association. Meetings of the various commissions shall be held during the week of the Annual Meeting of the Association. Other meetings of the

Association and/or other meetings of any commission may be held when such meetings are authorized by the Executive Committee and approved by the Association.

ARTICLE VI. FEES

An annual fee shall be paid by each member university, college, and secondary school. The amount of the fee shall be fixed by the Executive Committee, subject to the approval of the Association.

Member universities, colleges, and secondary schools are entitled to have the services of the Association and to receive the NORTH CENTRAL ASSOCIATION QUARTERLY and/or such other publications as may be authorized for distribution.

ARTICLE VII. THE RIGHT TO VOTE

Section 1. Only members of a commission shall have the right to vote at official meetings of the commission of which they are members.

Section 2. All votes at official meetings of the Association shall be by member universities, colleges and secondary schools. Each member university, college, and secondary school shall have only one vote on any question before the Association, and this vote shall be cast by an officially designated representative.

ARTICLE VIII. QUORUM

Fifty voting members of the Association shall constitute a quorum for conducting business at any official meeting of the Association.

ARTICLE IX. AMENDMENT

This constitution may be amended by a three-fourths vote of the voting members at any official meeting of the Association, providing that a printed notice of any proposed amendments has been sent to each individual who is a member of the Association and to each member university, college, and secondary school at least two weeks prior to the date of said meeting.

ARTICLE X. PROCEDURE

Parliamentary procedure in all meetings of the Association and of the commissions shall be in accordance with *Robert's Rules of Order*.
